I. Orientation/ Vision

Students involved in the asapsac will serve in cooperation with ASAP staff to create a program that is for youth, by youth. They will direct the policy, procedure, curriculum, staff, budget, and direction of the program to ensure we are working with students in their best interest not for them. At the last meeting of the year we will develop a vision for this advisory committee that will guide us into 2009.

II. Current Classes/ future classes

Overall -More classes, need to go more places- 1 trip per class, Next time electronics class.

Agents of change- want more opportunities to give back/ good class or concept, but need less talking at us and more doing.

Jmg- don't want at most schools, should be more gardening, need better teachers who care about what they are teaching and the kids (older staff).

Cooking- good class gives experiences for when you are older- want student selection of recipes.

Adventure- good class, go places.

HW- don't like this, but we get that parents want us to do it. Wish teachers would be nicer and pay more attention to us.

*sacwork- using the attached questionnaire get feedback from each campus on what works now and what we need to add for classes next time.

III. Discipline/ policies

Take disruptive kids out!

*sacwork- using the attached questions write down as much as you know about the current ASAP rules and expectations.

IV. Staff/ rewards: awards

Teachers need to find ways to engage kids that are losing interest (Damian and Preston),

Teachers in classes aren't fun

Teachers need to pay attention to kids, treat everyone equally, and need teachers who care about classes
