

The process for receiving access to your student's information will be as follows:

1. From our campus home page, click the **ParentCONNECT** link.
2. Click on the **Register** button on the ParentCONNECT web page.
3. Complete the online registration form.
4. For security reasons, your next step is to **visit the office at your child's campus** and complete the ParentCONNECT verification form. **Photo identification will be required.**
5. Office personnel will verify your registration and give you a UserID and password for accessing your student's information.

If you have any questions about or problems with your ParentCONNECT access, please contact us at parentconnect@georgetownisd.org.

If you have children at other GISD campuses, you will be notified as those campuses come online with ParentCONNECT throughout the rest of the school year, and you will be able to visit those schools to add your other children to your ParentCONNECT account.

Please let us know if we can be of any further assistance. Thank you and we hope you enjoy using ParentCONNECT.
