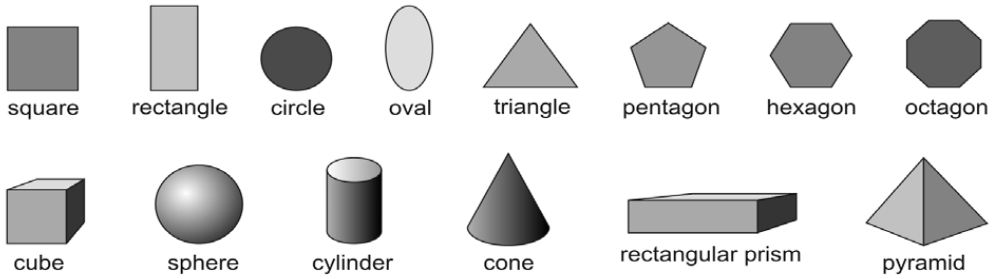
Geometric Shapes in Your World



How many of the above shapes can you find in the real world?

Using your digital camera, walk around campus and photograph 8 objects that represent geometric shapes.

Hint: You can find all of these objects in the architecture around you. In addition to concentrating on geometry, describe the photographic techniques used during your photography. Terms you can use in your description are listed below:

Use a plain background
Use flash outdoors
Move in close
Move it from the middle
Lock the focus
Know your flash's range
Watch the light
Take some vertical pictures
Sunlight
Flash
Red-eye
Rule of Thirds
Camera Positioning
Using Lines
White Balance
Digital Zoom VS Optical Zoom
Sensitivity (ISO)

What did you photograph	What shape is represented	Describe Composition of Picture **(techniques used)**
