

Demonstration or Model Type Project

Purpose: It is important to understand or know about this model because. . . (connect to world events, local community, family, or self). List useful purposes.

Explanation: Actually explains how an (airplane) works.

Research: The history of the development of the (airplane). Perhaps the types of (airplanes) for different purposes.

Conclusion: Explain how (airplanes) have changed our life or the world around us since it was invented.

Example: Because of (airplanes) we can now travel around the world in less than 24 hours. Before (airplanes) were invented it took at least _____ days to travel around the world.

Acknowledgements: I would like to acknowledge my father, Robert Villa, for helping me construct the wings of the plane and supervising me so I was safe.

Bibliography: Tell where you got your research information.

Media: Have film and dialogue describing what the participant is doing in the development of the model. (If you have a display board then pictures with captions are appropriate.)
