

Notebook Organization

3rd, 4th, 5th Grade GT Math

You should have 5 dividers in your notebook in the following order:

- **Special Forms and Letters**
- **Homework**
- **Investigations & Notes**
- **Chapman's Challenges**
- **Vocabulary**

What is behind each tab?

• **Special Forms:** In this section keep your Notebook Organization sheet, Assignment Sheet, Parent Letters and any other important handouts given throughout the year that need to be kept in your notebook for reference.

• **Homework:** This section should include all homework. Keep this section in chronological order (the order in which it was done).

• **Investigations & Notes:** This section should include all work you do for in class assignments and any handouts that accompany them, as well as quizzes, tests, and projects. Keep this section in chronological order (the order in which it was done). To keep your work organized, date every entry and always title what you are working on for the day.

• **Chapman's Challenges:** This section should include any Chapman Challenge recording sheets that have been graded. Remember to keep this section in chronological order (the order in which it was done). To keep your work organized, date every entry and always title what you are working on for the day. If it is a work in progress and has NOT been graded, leave it in your portfolio folder.

• **Vocabulary:** You will create mathematical descriptions with examples of words you need to know. Leave plenty of extra room to add your ideas. This section is maintained throughout the year and we will build upon this next year (yes, even in middle school!).

**NO OTHER SUBJECT WORK SHOULD BE KEPT IN THIS
NOTEBOOK!**

**YOUR NOTEBOOK SHOULD BE BROUGHT TO CLASS
EVERYDAY!**

YOUR NOTEBOOK SHOULD BE TAKEN HOME EVERYDAY!
