

Dear Parents,

Starting after TAKS, students will begin creating a memory book. I am asking for your help in collecting information about your child's early years. I am sending your child home with an interview sheet with directions to get us started on the project. This is also posted on my class website in case they are lost or do not make it home!

For the project we will be asking for information, pictures, and stories about your child's life to this point. I hope that this will be a book that the child can look back on when they are older and see the many ways they have changed. Please see the material included in this envelope and return by May 6th.

Thank you,

Mrs. Dieringer
