

Open Web Site

1. From the desktop of your computer, **double-click** on your home folder to open it.
2. **Double-click** your **Teacher Web Template** folder.
3. **RIGHT-click** on the file named **index** (it might also be called **index.htm** depending on your computer's settings.)
4. Select **Edit** from the menu that pops up.
5. Your website should now open for editing in FrontPage.
