No backpacks are allowed in the classroom. These are kept in the students' lockers. It is recommended that students have a lock for their locker.

It is also suggested, but not required, that students have an inexpensive **flash drive** on which to store computer data. This will allow students to work on classroom computer projects at home. These may be ordered through the school store in the cafeteria. If you choose to purchase a flash drive from an outside source, make absolutely certain that it does NOT contain any preloaded software programs, as the GISD system will block access. The up-keep of flash drives will be the responsibility of the student. Tippit will not be responsible for lost or damaged flash drives.
