Vision, Mission, and Learner Profile

Mission: Inspiring and empowering every learner to lead, grow, and serve.

Vision: Home of the most empowered students, served by the most empowered leaders.

Learner Profile: The GISD Learner…

- Communicates, collaborates, and applies critical thinking
- Creates and innovates
- Obtains knowledge through inquiry and exploration
- Adapts and perseveres
- Develops self-knowledge and personal responsibility
- Builds and models respectful relationships
Welcome to Georgetown ISD

Dear Students and Parents,

This GISD Course Guide is designed to support your planning and decisions regarding your high school experience. This guide includes a description of each course, graduation requirements, career pathways and programs of study, college admission processes, and postsecondary college and career readiness requirements.

When selecting your courses, take time to consider your personal interests, graduation requirements, and goals for the future.

The secondary curriculum offers a full range of courses, including advanced academics, Career and Technology Education (CTE) programs, fine arts, and elective courses. In addition to the core academic programs, the schools in Georgetown ISD offer a large number of extracurricular clubs, organizations, and other opportunities for students to build a sense of community. Our school district provides multiple opportunities for students to discover their purpose and demonstrate the attributes of the learner profile.

Our dedicated counselors are available for you to guide your next steps and answer questions.

Dr. Devin Padavil
Superintendent

GEORGETOWN ISD COURSE GUIDE

The Georgetown ISD Course Guide provides information intended to support students as they plan for high school and postsecondary success. The information in the GISD District Course Guide is subject to change based on new information mandated through the Texas Legislature, the Texas Education Agency or the State Board of Education. As updates are made to the GISD District Course Guide, changes will be noted online as addendums by the GISD Teaching and Learning Department. Not all courses listed in this catalog may be available on all campuses or may be offered in a given year. Please remember a minimum number of students is required in a class for the class to be staffed and scheduled.

GEORGETOWN ISD GRADUATION PLANS

GISD offers students the opportunity to choose among State-mandated graduation requirement plans. Since entrance requirements vary greatly from college to college and employers have varying needs and requirements, students should carefully consider high school course selections and investigate postsecondary entrance and entry level employment requirements prior to selecting their graduation plan. Students in GISD must complete a minimum of 26* credits to receive a high school diploma on the Foundation’ Endorsement(s) Plan. The Distinguished Level of Achievement graduation plan is required to qualify for Automatic (Top 10%) Admission to Texas public colleges and universities.

All courses used to meet State graduation requirements must be selected from State Board of Education (SBOE)-approved courses, with the exception of some elective credits which may be locally approved. All courses in this catalog are State Board-approved unless noted as Local Credit Only. Locally developed electives (Local Credit Only) have been designed to meet an identified GISD need or interest.

Credit requirements specific to at least one endorsement.
REQUIRED STATE ASSESSMENTS

STAAR (State of Texas Assessments of Academic Readiness) End-of-Course (EOC) Requirements for Graduation:

- English 1
- English 2
- Algebra 1
- Biology
- US History

Each EOC exam will have a designated satisfactory performance score. If the student does not meet the score requirement, the student will be required to retake the test. Students not passing the EOC may retest during scheduled testing administrations.

ADDITIONAL GRADUATION REQUIREMENTS

In addition to meeting graduation credit requirements, students must also satisfy the following requirements to receive a high school diploma:

Financial Aid Application Requirement: All 12th grade students must do one of the following in order to graduate:

- Complete and submit a Free Application for Federal Student Aid ([FAFSA](#))
- Complete and submit a Texas Application for State Financial Aid ([TASFA](#))
- Submit a signed opt-out form

Speech Requirement: Chapter §74.11. of Texas Education Code requires students to demonstrate proficiency in communication skills needed for professional and social success. This state requirement will be met through the completion of English IV or approved substitutions.

Instruction on Proper Interaction with Peace Officers: Chapter §74.39. of Texas Education Code requires students receive instruction in proper interaction with police officers at least once before graduation from high school. GISD students receive this instruction during their sophomore year.

Instruction in Cardiopulmonary Resuscitation (CPR): Chapter §74.38. of Texas Education Code requires students to receive instruction in CPR at least once in grades 7-12 before graduation. CPR Instruction is provided to GISD students during their senior year.
### Personal Graduation Planning

The process of creating a personal graduation plan (PGP) involves understanding future goals and choosing courses that help prepare students to meet their aspirations. While student interests are expected to change throughout their schooling, the hope is that the personal graduation plan will also change so that students feel prepared for whatever their post-high school plans may be. When selecting courses within their PGP, students should consider courses that allow for multiple college, career, or military-related options after high school. It is important for students to create a rigorous plan while maintaining a healthy balance of extra-curricular and/or part-time work opportunities. Choosing courses that meet their educational needs or interests is the best way to prepare for their future. The [GISD Personal Graduation Planning](#) website houses information to aid students and parents in learning about all course options, including endorsement pathways, while supporting students in creating or updating their PGPs.

| College Bound | Students planning on attending an institution of higher education after graduation should investigate post-secondary entrance requirements and career pathways within Career and Technical Education (CTE) that align hands-on high school learning experiences with post-secondary aspirations. Since entrance requirements vary greatly from college to college, students who are college-bound should carefully consider high school course selections and investigate college entrance requirements prior to developing their graduation plan. It is important to note students who have completed college credit courses in high school are twice as likely to graduate from college on time in four years or a semester earlier than students who have not. It is also important to note that there are options to support students in paying for a college education which may include various scholarships, completion of the Free Application for Federal Student Aid (FAFSA) or Texas Application for State Financial Aid (TASFA). Students should research their requirements prior to developing their plan. |
| Career Bound | Students planning to seek employment in a career field after graduation should investigate industry certification requirements and industry experience requirements that could be met through advanced (CTE) courses, practicums, or career preparation work study hours prior to selecting their courses and developing their graduation plan. A large percentage of students enrolled in CTE courses are planning to pursue post-secondary education; therefore, it is advised that career bound students also investigate college and technical school entrance requirements prior to developing their graduation plan. |
| Military Bound | Students planning to seek employment in a branch of the armed services directly after graduation should research the requirements of the various branches of the military and the military occupation specialties therein and should select a program of study that will prepare them for success. Military bound students should also consider both physical fitness preparation and preparation for the Armed Services Vocational Aptitude Battery (ASVAB) test, which assesses arithmetic reasoning, word knowledge, paragraph comprehension, and mathematics knowledge, prior to selecting their courses and graduation plan. It is important to note that scores on the ASVAB determine access to certain military occupation specialties, and it is also important to note that students who seek to become commissioned officers in a branch of the military might want to consider selecting NJROTC in high school and pursuing an ROTC scholarship for college. Additionally, military enlistment can provide debt free access to a college education and cost free certification in a multitude of career fields. |

*It is the student and parent’s responsibility to see that the requirements for graduation from high school are met. If students have any questions about courses, registration, state-required exit level exams or other graduation requirements, contact the campus counseling department.*
CAREER & TECHNICAL EDUCATION (CTE)

Career and Technical Education in Georgetown ISD is focused on meeting the individual needs of all students by providing curricula to meet the demands of our 21st Century global economy. It is the goal of Georgetown’s Career and Technical Education Program to provide for relevant, career-related experiences and rigorous high-quality academic instruction to ensure that each and every student attains mastery of the knowledge and skills necessary to achieve a lifetime of success. Additionally, Georgetown ISD is committed to our partnerships. We recognize our role and responsibility in preparing students to meet the future employment needs of these entities to maintain the health and well-being of our local, area, and state-wide economy and our society at-large.

Non-discrimination Statement

All students have the opportunity to enroll in Career and Technical Education courses along with the more traditional academic courses. Enrollment in Career and Technical Education courses is open to all qualified students without regard to race, color, creed, religious affiliation, sex or handicapping conditions. Safety is an important part of elective course work and must be demonstrated before students are allowed to work.

Programs of Study

Georgetown ISD Texas Programs of Study provide students with a rigorous and relevant high school experience. The Achieve Texas initiative organizes occupations and broad industry into career clusters based upon commonalities. Therefore, each student, working collaboratively with his/her parents and school counselor, will have the opportunity to develop an individualized four, six, or eight-year Program of Study tied to future interest and career goals. A Program of Study is a comprehensive plan designed to support college/career readiness through the strategic alignment of foundational academic, career-related technical, and enrichment courses which fosters multiple postsecondary options as related to each individual student’s interest(s). Students completing any of the GISD Programs of Study will graduate prepared for postsecondary education, technical training, and/or entry-level career placement.

CTE Mission Statement

The mission of Georgetown Independent School District’s Career and Technical Education department is to better prepare students for postsecondary education, or entry into the workforce by providing state of the art instruction and practical, hands-on lab experience from highly qualified staff and to assist students in becoming successful, critical thinking, competent and caring individuals through real world experience, guidance and leadership.
Students must choose at least one endorsement, or area of concentration, upon entering the ninth grade. The State of Texas has identified five endorsement areas: STEM, Business and Industry, Public Services, Arts and Humanities, and Multidisciplinary Studies. In order to earn an endorsement, students must take courses that align to that area of study.

The endorsement categories are listed below with specific focus areas in each. The charts that follow should be used as a guide to help students in developing their personal graduation plan (PGP). Each chart follows a GISD endorsement pathway and includes the *recommended* course sequences as well as the course requirements to earn a specific endorsement.

- Courses with a colored box around the perimeter are held at the GISD Future Ready Complex.

- Courses with blocks that are highlighted gray represent a sequence of courses that must be taken in order - starting with the first grayed in course.

- Courses labeled with “GISD Sequence Pre-Req” are ones that have been locally determined as courses that must be taken in order for the learning experience of the student.

For the purposes of endorsements and CTE program of study completion, courses that are **BOLD** are considered level three and level four CTE courses.

## Endorsement: Arts and Humanities

### CTE Career Cluster | GiSD Focus Area
--- | ---
Non-CTE Option | Visual Arts

To earn an Arts and Humanities endorsement in Visual Arts, students may choose four credits from a coherent sequence of Visual Arts courses (i.e. Art 1, Art 2 Drawing, Art 3 Drawing, Art 4 Drawing) or choose four credits from up to two of the fine arts disciplines including visual arts and performing arts categories. All courses below are 1 credit.

- Art 1
- Art 2-4 Digital Art & Media
- Art 2-4 Ceramics
- Art 2-4 Drawing
- Art 2-4 Painting
- Art 2-4 Photography
- Art 2-4 Sculpture
- AP Drawing
- AP 2D Art & Design
- AP 3D Art & Design
- AP Art History

### Non-CTE Option | Performing Arts

To earn an Arts and Humanities endorsement in Performing Arts, students may choose four credits from a coherent sequence of Performing Arts (i.e. Band 1, Band 2, Band 3, Band 4) or choose four credits from up to two of the fine arts disciplines including visual arts and performing arts categories. All courses below are 1 credit.

**Music**
- Band 1-4, Choir 1-4, Jazz Band 1-4, Orchestra 1-4, Instrumental Ensemble 1-4, Vocal Ensemble 1-4, Music Theory, AP Music Theory, Musical Theatre

**Dance:**
- Dance 1-4, Dance Team 1-4, Dance Color Guard 1-4, Dance 1-2 Choreography

**Theater:**
- Theatre 1-4, Technical Theatre 1-4, Theatre Production 1, Theatre Facility Management 2-4

### Non-CTE Option | World Language

Choose 4 credits in one language OR 2 credits in one language and 2 credits in an additional language.

- French 1-4, 1 credit each
- German 1-4, 1 credit each
- Spanish 1-5, 1 credit each

### Non-CTE Option | Social Studies Combo

To earn an Arts and Humanities endorsement in Social Studies, students must earn credit for the following courses:

- World Geography - OR - World History
- US History
- Government - AND - Economics

AP, Dual Credit, and OnRamps versions of courses may be used.

In addition to the courses above, students may choose two additional social studies elective credits from (unless noted, all courses are 1 credit):

- Ethnic Studies: African American Studies
- Ethnic Studies: Mexican American Studies
- European History AP
- Psychology AP
- Influence of the Old/New Testament
- Sociology, 0.5 credit
- Psychology, 0.5 credit
- Personal Financial Literacy, 0.5 credit
## Endorsement: Multidisciplinary

</tr>
</tbody>
</table>
HIGH SCHOOL CREDIT THROUGH CREDIT BY EXAM

Credit by Examination (CBE) for Credit Recovery

A student who has had sufficient prior formal instruction as determined by the district on the basis of a review of the student’s educational records or who has failed a course may gain credit for the course by passing a proficiency examination on the Texas Essential Knowledge and Skills of the course. Georgetown ISD utilizes UT High School exams administered at the student’s school, and a score of 70% is required to earn Credit Recovery. See student handbook and CBE Website for more information and implications to grade point average.

Credit by Examination (CBE) for Acceleration

Examination for Acceleration allows students without prior instruction to advance to the next level of learning by demonstrating mastery of the required knowledge and skills. Students take a designated criterion-referenced test which covers the Texas Essential Knowledge and Skills and major learning for the course for which they wish credit. Georgetown ISD utilizes UT High School exams administered at the student’s school, and a score of 80% is required to earn Acceleration credit. See student handbook and CBE website for more information and implications to grade point average. Additionally, students should speak with their campus counselor for more information regarding the CBE.

Avant STAMP (STAndards-based Measurement of Proficiency)

The Avant STAMP is a general language proficiency assessment of Reading, Writing, Listening, and Speaking skills. It is designed for second-language learners aged 13 and older. Avant STAMP uses authentic texts and audio in situations the learner may encounter in the real world such as articles, newscasts, menus, and signs. All tests languages offered are aligned to the ACTFL Proficiency Guidelines.

A student wishing to accelerate in a foreign language can earn up to 5 LOTE credits based on student performance on the exam. There are set testing windows throughout the year. Students should speak with their campus counselor for more information regarding the Avant exam.

HIGH SCHOOL CREDIT THROUGH DISTANCE LEARNING

Students may choose to take correspondence, distance, and virtual courses outside the school day at their own expense, and those courses when successfully completed can count toward high school credits for graduation. Students are required to provide a GISD Correspondence Course Approval Form for any correspondence, distance, or virtual course to their counselor prior to enrollment in the course. Georgetown ISD recommends that any correspondence, distance, or virtual courses required for graduation are completed by the end of the fall semester of a student’s senior year. Credit toward state graduation requirements shall be granted under the following conditions:

- The institution offering the course is The University of Texas (UT), Texas Tech University, Texas Virtual School Network (TxVSN), or other public institution of higher education approved by the Commissioner of Education.
- The course includes the state-required Texas Essential Knowledge and Skills for such a course.

Student athletes who are considering correspondence, distance, or virtual courses must check with the NCAA to inquire if a course of this type is acceptable as part of the NCAA core curriculum requirements. Please visit the NCAA website www.eligibilitycenter.org or 1-877-262-1492.

A correspondence, distance, or virtual course is not considered completed until the final grade is recorded in the campus registrar’s office. Refer to the GISD Student Handbook regarding implications to grade point average.
High School Credit Awarded Upon College Course Completion (outside GISD)

A student may register for a college or university level course outside the school day while enrolled in high school to earn college credit. The student may choose to request that the college credit be transcribed for high school credit to meet a graduation requirement. A student who chooses to do this must request the transcript from the college or university and pay any associated fees.

Students who are granted release time for co-enrollment must meet all district requirements for graduation. Refer to the GISD Student Handbook regarding implications to grade point average.

To pursue these opportunities, students must receive counselor, college/university and parent approval. Students must meet the entrance requirements including college entrance exams and are responsible for the application, registration, and all costs associated with this process. Please see the GISD Dual Credit Guide for more information.

COLLEGE CREDIT THROUGH HIGH SCHOOL COURSES

College Board Advanced Placement® Program

The College Board’s Advanced Placement (AP) Program offers high school students an opportunity to take college-level courses in a wide variety of subjects while still in high school. The benefits of taking an AP course include:

- AP courses offer the opportunity to study a subject in-depth at the college level. This better prepares students for college success.
- If a student receives a high enough score on an AP Exam, the student may be eligible for credit, advanced placement or both at most colleges in the United States. The AP Credit Search tool is a helpful resource for determining how much and what kind of credit a college could apply.
- The AP Program offers a number of AP Scholar Awards to students for outstanding performance on AP Exams. If a student qualifies, colleges will recognize this achievement.

AP courses are open-enrollment; any student may enroll in any AP course as long as the prerequisite courses have been successfully completed. Careful consideration of the time demands of a student’s extracurricular activities, employment, community service, homework and other activities should be considered. If you have questions regarding these courses and/or earning credit through AP Exams, please contact your student’s teacher, counselor/academic advisor or campus administrator. Please be aware that each college or university has its own guidelines for the awarding of college credit for AP exams, so be sure to research the specific colleges/universities of interest for more information. To learn more about the AP Program, go to: Advanced Placement® (AP) – The College Board

Dual Enrollment (University of Texas at Austin OnRamps)

Georgetown ISD offers students the opportunity to take dual enrollment courses. Students who take these courses have the opportunity to earn both college and high school credits. The dual enrollment opportunity is provided to GISD students through The University of Texas at Austin OnRamps program. Students in dual enrollment courses have a GISD teacher who works collaboratively with a faculty member from the University of Texas - Austin. The University faculty member develops, designs, and oversees each course in accordance with departmental rigor and quality. The University of Texas faculty member serves as the instructor of record and evaluates the student’s progress according to the University standards. OnRamps courses do not require admission to the University, but are aligned with courses taught to the University of Texas students. For more information, please see the GISD OnRamps Guide.
Dual Credit Program - Austin Community College

Austin Community College (ACC) allows high school students the opportunity to earn college credit while in high school. These courses are considered dual credit if used to satisfy the high school graduation requirement and articulated if taken in high school and later recaptured at ACC. The benefits of these ACC programs include:

- Students get a head start on earning college credit.
- There is potential for savings on tuition and fees.
- College-level work can enhance self-esteem, education, and career goals.
- Many courses are transferable to other public colleges and universities.

Students may enroll in college while still enrolled in high school to extend learning or accumulate college hours. To take dual credit courses, students must receive counselor, ACC, and parent approval. Students must meet the entrance requirements including college entrance exams and are responsible for the application and registration process. This process is time sensitive. Students should check with their counselor for information regarding costs associated with taking dual credit courses and check with colleges to be sure that they will accept the course credit.

Credit earned through dual credit counts for both college and high school credit in a core content area or an elective and fulfills high school graduation requirements. Students must submit an official transcript to the district in order to receive high school credit if they do not allow ACC to report the credit for them. To receive high school credit, the grade in the course must be a D (70%) or better. Several Austin Community College (ACC) courses are typically offered during the school day on the GHS and EVHS campuses. Course offerings can vary depending upon student interest and instructor availability. ACC classes are free—no tuition or fees are charged to high school students enrolled in the program on a GISD high school campus. The exception to this is the ACC economics dual credit course which requires a fee for a digital resource. Families may contact their high school counselor or CCMR Specialist for approved ACC Dual Credit course offerings. Please see the GISD Dual Credit Guide for more information.

ACCTech (Articulated)

Articulated college credit courses are a way to start a college technical major while in high school. For more information see “Articulated” in the Course Types section of the course guide.

ADVANCED COURSE GUIDELINES

Choosing Advanced Courses
Advanced, AP, Dual Credit, and Dual Enrollment courses are designed to enhance a student’s academic experience by challenging motivated students beyond on-level coursework. These advanced courses move at a faster pace, are more academically challenging and require more independent learning than on-level courses.

Georgetown ISD is committed to providing advanced course possibilities by identifying and encouraging students with potential for success, communicating the value of college-rigor coursework, supporting advanced academic instruction, and providing students with opportunities for success. Our teachers are committed to encouraging student participation and success; planning for student learning; providing rigorous, quality instruction; and offering assistance for struggling students.

Petition for Advanced Course Exit
To ensure that students allow sufficient time to become acclimated to the courses and what the advanced course curriculum can offer, Georgetown ISD expects that any student who enrolls in a Advanced, AP, Dual Credit, or Dual Enrollment course will remain in the course until the window between the first and second progress report grading cycle (3rd - 6th week of school). At that time a student may request a Petition for Advanced Course Exit. Exit processes are in place to assist students in making sound course selection decisions. Students and parents must be aware that grades earned in an advanced course follow the student to the on-level course and will be included in the student’s overall course average.

Petition for Advanced Course Exit may be requested/submitted twice during the school year:

Within the 3rd and 6th week of the first nine-week grading period (to begin in an on-level course within the first nine-weeks); ~ OR ~
The first ten (10) school days of December (to begin in an on-level course for the spring semester).

Calendar dates will be posted each year. The petition for exit requires that the student has conferenced with their teacher about their performance and have implemented recommendations for improvement. The petition for exit may or may not be granted by the campus. The decision will be based on input from the teacher, student performance in the course, the availability of space in other courses, and timing of the request.

Student Commitment Guidelines
As a student, I commit to advanced course(s) by recognizing the long-term benefits of participation and seeking assistance when needed.

- I understand that advanced courses are challenging and my initial grades may not reflect later performance, especially if it is my first time to take such a course.
- I understand that advanced courses require a great level of time and summer work is often a requirement.
- I will be prepared for class each day and actively participate in lessons and discussions.
- If I encounter difficulty in the course, I will conference with my teacher and attend tutorials.
- I understand that successfully following through on this commitment could result in extra GPA points, increased preparation for college, and possible college credit upon successful completion of college-level courses and/or AP Exam(s).

Parent Commitment Guidelines
As a parent, I commit to advanced course(s) by supporting my student’s learning; supporting the teacher’s efforts to provide rigorous, quality instruction; and by valuing the learning that occurs in an advanced course.

- I understand that advanced courses are challenging, and initial grades may not reflect later performance, especially if it is my child’s first time taking advanced courses. I will support my child through the adjustment and use improvement as a measure of success.
- I will encourage my child to be prepared for class each day.
- I will expect my child to conference with the teacher and attend recommended tutorials if my child encounters difficulties with course content.
- I will contact the teacher for his/her input prior to initiating a petition for my child to exit the course.

This document is meant to help everyone understand the commitment that advanced courses require and help communicate the expectations so all students are successful in these rigorous courses. Students taking high school credit courses while in middle school will also abide by the Advanced Course Commitment guidelines.
ADDITIONAL ADVANCED OPTIONS

Gifted and Talented Services

Georgetown ISD defines gifted and talented as any child or youth in grades K-12 who performs at, or shows the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment and who (1) exhibits high performance capability in general intellectual ability; or (2) excels in one or more specific academic fields: math, science, language arts, and/or social studies.

Students who participate in services designed for gifted students will demonstrate skills in self-directed learning, thinking, research, and communication as evidenced by the development of innovative products and performances that are advanced in relation to students of similar age, experience, or environment and reflect individuality and creativity. High school graduates who have participated in services for gifted students will have produced products and performances of professional quality as part of their program services.

Gifted students are encouraged to enroll in advanced courses, such as Advanced, AP, Dual Credit, and Dual Enrollment. Middle school and high school teachers of these courses complete 30 hours of gifted training, which includes nature and needs of gifted students, in addition to a yearly 6-hour update course.

Middle school and high school students may be referred for gifted testing between 8:00 am on the first instructional day of November and 3:00 pm on the first Tuesday in December.

Independent Study

Capstone independent study courses are meant to enhance the opportunities for the production of advanced academic products through guided research. See description in “Course Types” section of the course guide.

PERFORMANCE ACKNOWLEDGEMENTS

Students graduating on the Foundation High School Program can earn Performance Acknowledgements on their transcript for outstanding performance in a dual credit course; in bilingualism and bi-literacy; on an AP exam; on the PSAT/NMSQT®, SAT® or ACT®; and by earning a nationally or internationally recognized business or industry certification or license. Please see page 15 of the graduation requirements link found on the Texas Education Agency website for specific Performance Acknowledgement requirements.
College Entrance Exams

Colleges and universities weigh admissions decisions in part based on the student performance on the SAT and/or ACT exams. SAT/ACT exam scores are not only used for admissions criteria; these scores can be used to determine scholarship and financial awards. All Georgetown ISD students have exposure to the PSAT suite of assessments from 8th–11th grades at no cost to the student. From this testing opportunity, GISD students are provided feedback in terms of strengths and weaknesses on skills needed to be successful on the SAT.

It is important to note that in the junior year students take admissions exams to demonstrate their readiness for college level work. Prior to the junior year, however, students should take advantage of utilizing PSAT assessment results as a driver for preparing themselves for success on the college admissions exams and the PSAT/NMSQT exam taken during the junior year, which could result in scholarships that cover tuition, room, board, and study abroad offers from some universities. Utilizing Khan Academy, which tailors online practice to areas in need of growth for the individual student once the College Board account and the Khan Academy account are linked, can help students create a practice plan for improvement. For more information on how to create or link accounts, refer to the campus College Career Military Readiness (CCMR) Specialist and/or school counselor.

Admission to Texas Public Colleges and Universities

Under the Automatic Admission policy (Texas Education Code §51.803), Texas students may be eligible for automatic admission to a state college or university as an undergraduate student if they meet certain criteria. For more information about this criteria, refer to the GISD Student Handbook or the campus College Career Military Readiness (CCMR) Specialist and/or school counselor.

Texas Success Initiative - TSI

Texas Success Initiative (TSI) - Texas law requires all entering students who wish to enroll in a Texas public higher education institution to meet college readiness standards in reading, writing, and math. Students who do not meet TSI standards upon graduation will be required to pass developmental courses at the college they are attending in order to start college-level coursework. Developmental courses are costly and do not count towards graduation. The same TSI standards are also required for a student who participates in Austin Community College’s Dual Credit program. See the GISD Student Handbook for TSI standards for available assessments or the campus College Career Military Readiness (CCMR) Specialist.

Armed Services Vocational Aptitude Battery

The Armed Services Vocational Aptitude Battery (ASVAB) Career Exploration Program facilitates career planning and exploration, combining a multiple-aptitude test with an interest self-assessment and wide range of career exploration tools. The test is a multiple-aptitude battery that measures developed abilities and helps predict future academic and occupational success. The test is FREE and is offered to all interested 10th - 12th grade students each school year. A student does not need to join the military to take the ASVAB. This exam provides useful career aptitude information for ALL students to utilize in their future planning. Results from the test are shared with the individual student and campus only.

For more information, contact the high school campus College, Career, and Military (CCMR) Specialist.

Free Application for Federal Student Aid

The Free Application for Federal Student Aid (FAFSA) is available at www.FAFSA.ed.gov beginning October 1 of each year. It is an online application that should be completed during a student’s senior year in high school. Completing a FAFSA may qualify a student for federal student loans, grants, the work-study program, scholarships and student/parent loans (subsidized & unsubsidized). Additionally, many universities require the FAFSA be filled out to be eligible for scholarship opportunities at the college or university. Families may submit the FAFSA as early as October 1 of the student’s senior year. Most universities have a FAFSA priority deadline. Texas General Academic Teaching Institutions have a priority deadline of January 15th for FAFSA submission. Students should check the FAFSA deadline for each school to which they apply.
The FAFSA should be completed if you are a:

- U.S. Citizen
- Permanent U.S. resident with an Alien Registration Card (I-551)
- Conditional permanent U.S. resident with visa type I-551C
- Eligible noncitizen with an Arrival/Departure Record (I-94) showing you as a: (a) Refugee  (b) Asylum granted (c) Parolee (d) Cuban-Haitian entrant. Additional information can be found at https://fafsa.ed.gov/.

Texas Application for State Financial Aid

The TASFA is the Texas Application for State Financial Aid and is an alternative to the FAFSA for undocumented students in Texas. Texas allows undocumented students to apply for state financial aid and state tuition under certain conditions. The TASFA needs to be completed during the senior year in high school. To fully understand the TASFA and to complete the application visit the THECB website. See your school counselor and/or CCMR Specialist for additional information on FAFSA and TASFA.

EARLY GRADUATION CONSIDERATION

Students considering graduating a semester or full year earlier than anticipated, must review the GISD Early Graduation Guide and meet with their high school counselor to update their personal graduation plan and discuss additional considerations and requirements.

This guide includes the following:

- Timelines for early graduation
- SB 1888 & the Texas First Diploma Program
- GISD Early Graduation Form

GPA CALCULATIONS AND REPORTING

A Weighted GPA (WGPA) is used to determine a class rank for each student. Class rank indicates the student’s academic standing relative to his/her peers (valedictorian, salutatorian, top ten percent, top quarter, second quarter, third quarter and fourth quarter). An exact numerical class rank is reported for each student.

Due to school closures in the Spring 2020 semester, the Georgetown ISD Board of Trustees established adjustments to GPA and rank calculations to be applied to that semester which included the following: Semester grades of complete (CMP)/incomplete (INC) for the Spring 2020 semester shall not be included in calculation of GPAs and weighted GPAs. No change was made to the courses counted towards rank in class outlined in Board Policy.

For more detailed information, see the Georgetown ISD student handbook and Board Policy EIC (Local).

Prerequisite(s): Course application with proposal to be approved.

## CAPSTONE ENGLISH INDEPENDENT STUDY

Capstone independent study courses will greatly enhance the opportunities for the production of advanced academic products through guided research. A project that consists of the long-term development of a question or idea that is significant to professionals in the academic area of interest will be the focal point of these courses. Sophisticated research methods and technology appropriate to the field of study will be used. The project must demonstrate creative mastery of content through a final product and presentation of professional quality to an appropriate audience. Students who successfully complete a project will earn independent study credit in the chosen discipline.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): LPAC Placement
Recommended Corequisite(s): ESOL I, ESOL II, ENG III C, and ENG IV C
ENGLISH LANGUAGE DEVELOPMENT AND ACQUISITION 1

This course must be taken concurrently with a co-requisite ELAR course. English Language Development and Acquisition 1 (ELDA) is designed to provide instructional opportunities for secondary recent immigrant students with little or no English proficiency. These students have scored at the negligible/very limited academic language level of the state-approved English oral language proficiency tests. This course enables students to become increasingly more proficient in English in all four language domains. It addresses cognitive, linguistic, and affective needs in compliance with federal requirements. The English Language Development and Acquisition (ELDA) course will validate a student's native language and culture as a valuable resource and as a foundation to attain the English language. It will develop social language, survival vocabulary, and the basic building blocks of literacy for newly arrived and preliterate students.

Prerequisite(s): LPAC Placement.
Recommended Corequisite(s): ESOL I, ESOL II, ENG III C, and ENG IV C

ENGLISH LANGUAGE DEVELOPMENT AND ACQUISITION 2

This course must be taken concurrently with a co-requisite ELAR course. English Language Development and Acquisition 2 (ELDA) is designed to provide instructional opportunities for secondary recent immigrant students with little or no English proficiency. These students have scored at the negligible/very limited academic language level of the state-approved English oral language proficiency tests. This course enables students to become increasingly more proficient in English in all four language domains. It addresses cognitive, linguistic, and affective needs in compliance with federal requirements. The English Language Development and Acquisition (ELDA) course will validate a student's native language and culture as a valuable resource and as a foundation to attain the English language. It will develop social language, survival vocabulary, and the basic building blocks of literacy for newly arrived and preliterate students.

ENGLISH 1

Course Key: ENG1  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03220100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): None

English language arts and reading embody the interconnected nature of listening, speaking, reading, writing, and thinking through the seven integrated strands of developing and sustaining foundational language skills; comprehension; response; multiple genres; author's purpose and craft; composition; and inquiry and research. The strands focus on academic oracy (proficiency in oral expression and comprehension), authentic reading, and reflective writing. The strands are integrated and progressive with students continuing to develop knowledge and skills with increased complexity and nuance in order to think critically and adapt to the ever-evolving nature of language and literacy.

ENGLISH 1 ADVANCED

Course Key: ENG1H  Length: YR  Course Type: Honors  Course Weight: Advanced
Service ID: 03220100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): None

This course will explore the same topics as English 1 with more depth and complexity.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

ENGLISH 1 CBLI

Course Key: ENG1C  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03220100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite: LPAC Placement
Course Description: English 1

This course teaches all English I TEKS. Emphasis is placed on content-based language instruction strategies to help students understand content while developing language skills.
ENGLISH 1 INCLUSION
Course Key: ENG1I  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03220100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): ARD Committee Placement

ENGLISH 1 SKILLS T
Course Key: ENG1ST  Length: YR  Course Type: Regular  Course Weight: Modified
Service ID: 03220107  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): ARD Committee Placement
See English 1

These courses will provide opportunities to participate in the English curriculum that has been adapted in scope, complexity, materials, methods of presentation and response styles appropriate to individual student needs. The scope of these courses and TEKS mastered is determined by the student's individual education plan (IEP). These courses meet the state graduation requirements for English.

ENGLISH 1 SPKRS OTH LANG
Course Key: ESOL1  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03200600  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): LPAC Placement
Recommended Corequisite(s): English Language Development & Acquisition (ELDA) course

This course teaches all English I TEKS with additional expectations for English language learners (relating to English Language Proficiency Standards). ESOL I may be substituted for English I (relating to Graduation Requirements) and all student expectations apply to ESOL I students. Emphasis is placed on the English proficiency levels of all four language domains (Listening, Speaking, Reading, Writing) to provide appropriate instruction to enable students to meet these standards. This specialized course is designed for newcomers or recent immigrants (enrolled in US schools for less than 3 years) with little or no English language.

ENGLISH 1 SPKRS OTH LANG MOD
Course Key: ESOL1M  Length: YR  Course Type: Regular  Course Weight: Modified

Service ID: 03220300  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

English language arts and reading embody the interconnected nature of listening, speaking, reading, writing, and thinking through the seven integrated strands of developing and sustaining foundational language skills; comprehension; response; multiple genres; author's purpose and craft; composition; and inquiry and research. The strands focus on academic oracy (proficiency in oral expression and comprehension), authentic reading, and reflective writing. The strands are integrated and progressive with students continuing to develop knowledge and skills with increased complexity and nuance in order to think critically and adapt to the ever-evolving nature of language and literacy.

ENGLISH 3 AP

Course Key: ENG3A  
Length: YR  
Course Type: Adv. Placement  
Course Weight: Advanced  
Service ID: A3220100  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

English 3 AP  
Prerequisite(s): None

The AP English Language and Composition course aligns to an introductory college-level rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in non-fiction texts, including graphic images as forms of text, from many disciplines and historical periods. For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

This course teaches all English 3 TEKS. Emphasis is placed on content based language instruction strategies to help students understand content while developing language skills.

ENGL 1301 - English Composition I
A study of the principles of composition with emphasis on language, the mechanics of writing, the types of discourse, and research and documentation.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

ENGL 1302 - English Composition II
ENGLISH 1302 is a continuation of English 1301 with emphasis on analysis of readings in fiction. Students will use literary elements to interpret short fiction.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

RHE 306 - INTRODUCTION TO RHETORIC: READING, WRITING AND RESEARCH & RHE 309 K- READING AND WRITING THE RHETORIC OF AMERICAN IDENTITY
This two-semester, six-credit writing intensive sequence features a fall RHE 306 Research & Writing course in argumentation that situates rhetoric as an art of civic discourse, followed by the spring semester RHE 309K Rhetoric of American Identity. Over the two courses, students analyze the various positions held in any public debate and learn to advocate their own
positions effectively.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

English 4 AP  
Prerequisite(s): None

The AP English Literature and Composition course aligns to an introductory college-level literary analysis course. The course engages students in the close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a work's structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works. For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): ENG3D1 (ACC ENGL 1301) and ENG3D2 (ACC ENGL 1302).

Dual credit course offered through Austin Community College and taught at the high school campus during school hours. Students earn both high school and college credit upon completion for the following ACC course(s):

ENGL 2322 - British Literature: Anglo-Saxon through 18th Century

ENGL 2322 is a survey of English literature from Anglo-Saxon times through the 18th Century.

NOTE: Accelerated course awards a full year of credit in one semester. Only one semester of this credit will count toward class rank.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

ENGLISH COLLEGE PREP 1

Course Key: ENGCP1  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: CP110100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): Administrative Placement Required

This is a college preparatory course designed to extend the understanding of English Language Arts concepts. The necessary components of grammar, persuasion, and argumentation needed for success in college are reviewed. Application of abstract and analytical thinking skills, advanced vocabulary, and writing skills are stressed. This is a fourth year course focused on those English Language Arts (ELA) skills necessary to pass the ELA placement tests at colleges, technical schools, and area community colleges.
II. Other Language Arts/Reading

</table>

The study of creative writing allows high school students to earn one-half to one credit while developing versatility as a writer. Creative Writing, a rigorous composition course, asks high school students to demonstrate their skill in such forms of writing as fictional writing, short stories, poetry, and drama. All students are expected to demonstrate an understanding of the recursive nature of the writing process, effectively applying the conventions of usage and the mechanics of written English. The students' evaluation of their own writing as well as the writing of others ensures that students completing this course are able to analyze and discuss published and unpublished pieces of writing, develop peer and self-assessments for effective writing, and set their own goals as writers.

Reading I, II, III offers students reading instruction to successfully navigate academic demands as well as attain life-long literacy skills. Specific instruction in word recognition, vocabulary, comprehension strategies, and fluency provides students an opportunity to read with competence, confidence, and understanding. Students learn how traditional and electronic texts are organized and how authors choose language for effect. All of these strategies are applied in instructional-level and independent-level texts that cross the content areas.

III. Mathematics

**ADV QUANTITATIVE REASONING**

Course Key: **ADQR**  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03102510  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1, Geometry, Algebra 2

This course is only offered at Richarte High School.

In Advanced Quantitative Reasoning, students will develop and apply skills necessary for college, careers, and life. Course content consists primarily of applications of high school mathematics concepts to prepare students to become well-educated and highly informed 21st century citizens. Students will develop and apply reasoning, planning, and communication to make decisions and solve problems in applied situations involving numerical reasoning, probability, statistical analysis, finance, mathematical selection, and modeling with algebra, geometry, trigonometry, and discrete mathematics.

**ALGEBRA 1**

Course Key: **ALG1**  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03100500  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): Grade 8 Mathematics, or its equivalent

Students will build on the knowledge and skills of 6-8 mathematics which provided a foundation in linear relationships, number and operations, and proportionality. Students will study linear, quadratic and exponential functions and make connections among the functions in both mathematical and real-world scenarios. Students will generate and solve linear systems with two equations and two variables and will create new functions through transformations. Students will use technology to collect and explore data and analyze statistical relationships. Students will also study polynomials of degree one and two, radical expressions, sequences and laws of exponents.

**ALGEBRA 1 ADVANCED**

Course Key: **ALG1H**  Length: YR  Course Type: Honors  Course Weight: Advanced
Service ID: 03100500  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): Grade 8 Mathematics, or its equivalent

This course will explore the same topics as Algebra 1 with more depth and complexity. Counselor recommendation is recommended.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**ALGEBRA 1 CBLI**

Course Key: **ALG1C**  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03100500  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): LPAC Placement, Identified LEP

This course teaches all Algebra I TEKS. Emphasis is placed on content based language instruction strategies to help students understand content while developing language skills.

**ALGEBRA 1 DB CBLI**

Course Key: **ALG1DBC**  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03100500  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

See Algebra 1

This Algebra 1 course will offer a full year's worth of content and credit through double-blocked/two-period scheduling in a single semester. The semester grade earned in this course will be awarded for both semester 1 and semester 2 of the course on the student's high school transcript. This format is typically best suited for students who meet the following criteria: (a) Has had a previous attempt at earning credit in Algebra I but was unable to do so, (b) Would benefit from traditional classroom instruction instead of other credit recovery options, (c) Has enough of a foundation in Algebra I through the prior attempt that earning the full credit for the class in one semester is viable, and (d) Will benefit and be able to earn original credit in a second math course (i.e. Algebraic Reasoning) through condensed instruction in a semester. If this course is taken for a second time to earn credit or support a stronger understanding of the Algebra 1 content, the grades earned will count into the student's cumulative GPA, but not the weighted rank GPA. For GPA considerations related to this unique model, speak with a campus counselor or see the GISD Credit Guide or GISD Board Policy (EIC local).

Prerequisite(s): Algebra 1

Recommended: Geometry

In Algebra 2, students will broaden their knowledge of quadratic functions, exponential functions, and systems of equations. Students will study logarithmic, square root, cubic, cube root, absolute value, rational functions and their related equations. Students will connect functions to their inverses and associated equations and solutions in both mathematical and real-world situations. In addition, students will extend their knowledge of data analysis and numeric and algebraic methods. Algebra 2 is a course required by most major universities.

</table>

Pre-requisite: Algebra I

In Algebraic Reasoning, students will build on the knowledge and skills for mathematics in Kindergarten-Grade 8 and Algebra I, continue with the development of mathematical reasoning related to algebraic understandings and processes, and deepen a foundation for studies in subsequent mathematics courses. Students will broaden their knowledge of functions and relationships, including linear, quadratic, square root, rational, cubic, cube root, exponential, absolute value, and logarithmic functions. Students will study these functions through analysis and application that includes explorations of patterns and structure, number and algebraic methods, and modeling from data using tools that build to workforce and college readiness such as probes, measurement tools, and software tools, including spreadsheets.

*Within this course, a student will receive remediation for the Algebra 1 EOC (if applicable).*

#### ALGEBRAIC REASONING CBLI

<table>
<thead>
<tr>
<th>Course Key: ALGREAC</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03102540</td>

</thead>
<tbody>
<tr>
<td>Service ID: 03102540</td>
<td>Credits: 0.50</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: Yes</td>
</tr>
</tbody>
</table>

Prerequisite(s): Algebra I
Recommendation: Placement based on recommendation and academic need
See Algebraic Reasoning

This Algebraic Reasoning course will offer a full year’s worth of content and credit through double-blocked/two-period
scheduling in a single semester. The semester grade earned in this course will be awarded for both semester 1 and semester 2 of the course on the student's high school transcript. Both semester grades will count in rank GPA.

This course is a full-year course designed to cover one semester of college level calculus. Calculus AB Advanced Placement will develop the student's understanding of the concepts of calculus including functions, graphs, limits, derivatives, integrals, and their applications. College credit can be achieved by demonstrating competence on the Advanced Placement exam. For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

This course is a full-year course designed to cover two semesters of college level calculus. In addition to the topics covered by Calculus AB, it will include parametric functions, vector functions, slope fields, Euler's method, polynomial approximations and series. College credit can be achieved by demonstrating competence on the Advanced Placement exam. For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.
### COMPUTER SCIENCE A MATH AP

**Course Key:** CSCIAMA  
**Length:** YR  
**Course Type:** Adv. Placement  
**Course Weight:** Advanced  
**Service ID:** A3580110  
**Credits:** 1.00  
**Credit Type:** State  
**Counted in Rank GPA:** Yes

**Recommended Prerequisite(s):** Algebra I, Computer Science 1  
**Corequisite(s):** AP Computer Science A LOTE AP

Advanced Placement (AP) Computer Science is designed to prepare students for the AP Computer Science A exam. The programming language used in this course is Java. Students will learn to design, implement, and analyze solutions to problems. Topics covered in this course include algorithms, data structures, and object-oriented programming. Students will develop programs individually and in teams. See https://secure-media.collegeboard.org/digitalServices/pdf/ap/ap-course-overviews/ap-computer-science-a-course-overview.pdf for more information.

Note: This course satisfies the requirement for a fourth credit of Mathematics for students graduating on the Foundation High School Program who have already completed Algebra I, II, and Geometry.

**NOTE REGARDING COMPUTER SCIENCE & LOTE GRADUATION REQUIREMENTS:**

The State Board of Education has approved specific computer sciences to substitute for LOTE credits. Georgetown ISD offers the following approved LOTE substitution courses: Computer Science Principles AP, Computer Science I, and Computer Science A AP. Students must complete 2 courses in Computer Science to satisfy the graduation requirement.

Please note that outside of Texas public universities, not all colleges and universities accept computer science for admission purposes as satisfying the LOTE requirement. Additionally, once admitted colleges and universities may have traditional LOTE graduation requirements. Students are encouraged to reach out to their prospective college(s) before enrollment in these courses for information about college admissions and graduation requirements.

**NOTE REGARDING GPA/RANK CREDITS:**

Computer Science A AP is a unique course that awards 1.0 credit for LOTE and 1.0 credit for Math. Students will be awarded and transcribed a numeric grade for the math credit and a Pass/Fail for the LOTE credit. Pass/fail grades do not count in rank GPA.

Beginning with the graduating class of 2025: Students in the graduating class of 2025 or later may elect to have the numeric grade awarded and transcribed for the LOTE credit and a Pass/Fail for the Math credit by submitting a request within two weeks after the end of the school year in which the student has taken the class. Both numeric semester grades will be transferred from Math to LOTE and cannot be split between areas. This request must be received and processed before rank and GPA are run by the district.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

### GEOMETRY

**Course Key:** GEO  
**Length:** YR  
**Course Type:** Regular  
**Course Weight:** Core  
**Service ID:** 03100700  
**Credits:** 1.00  
**Credit Type:** State  
**Counted in Rank GPA:** Yes

**Prerequisite(s):** Algebra 1

Students will strengthen their mathematical reasoning skills in geometric contexts. Within the course, students will begin to focus on more precise terminology, symbolic representations, and the development of proofs. Students will explore concepts covering coordinate and transformational geometry; logical argument and constructions; congruence; similarity, trigonometry; two- and three-dimensional figures; circles; and probability. Due to the emphasis of probability and statistics in the college and career readiness standards, standards dealing with probability have been added to the geometry curriculum to ensure students have proper exposure to these topics before pursuing their post-secondary education.

### GEOMETRY ADVANCED

**Course Key:** GEOH  
**Length:** YR  
**Course Type:** Honors  
**Course Weight:** Advanced  
**Service ID:** 03100700  
**Credits:** 1.00  
**Credit Type:** State  
**Counted in Rank GPA:** Yes

**Prerequisite(s):** Algebra 1

This course will explore the same topics as Geometry with more depth and complexity.
Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): Algebra 1, Geometry, and a 3rd year advanced math course

As part of the Texas Success Initiative (TSI), Texas law requires that students entering college to have readiness in reading and math. Various assessments determine if a student needs reinforcement of specific skills. Math College Prep is designed to prepare students for entry level college mathematics as well as for math placement tests required by colleges, technical schools, and area community colleges. This fourth year course will incorporate the understanding of numbers, operations, and qualitative reasoning; patterns, relationships, and algebraic thinking; geometry and measurement; and probability and statistics. Students will take the TSIA as part of the college readiness component of this course.

Note: This is not an open enrollment course. Students will be placed in Math College Prep upon completion of Algebra 2 and when they have not yet satisfied TSI graduation requirements.

**MATH IND STUDY ADVANCED**

<table>

</tr>
</tbody>
</table>

Prerequisite(s): Algebra 1, Geometry, Algebra 2 and course application with proposal to be approved.

In Independent Study in Mathematics, students will extend their mathematical understanding beyond the Algebra II level in a specific area or areas of mathematics such as theory of equations, number theory, non-Euclidean geometry, linear algebra,
advanced survey of mathematics, or history of mathematics. This course will provide students opportunities to pursue interest in mathematical topics via independent research, directed learning, preparation for and participation in challenging mathematics competitions, and/or mentoring by a mathematics professional.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**MATH IND STUDY DUAL CRED 1332**

Course Key: MAISD  
Length: YR  
Course Type: Dual Credit  
Course Weight: Advanced  
Service ID: 03102500  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1, Geometry, Algebra 2. ACC students must attain a qualifying TSI score and course availability is determined in collaboration with the community college.

Dual credit course offered through Austin Community College and taught at the high school campus during school hours. Students earn both high school and college credit upon completion for the following ACC course(s):

**MATH 1332 - CONTEMPORARY MATHEMATICS**

This course is intended to provide future college-bound students interested in non-mathematics and non-science-based majors with a survey of topics in mathematics. The emphasis may be towards developing students' quantitative reasoning skills, illustrating the beauty of mathematics as a discipline, and/or imparting a feel for the different ways in which mathematics is used.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

**MATH MODELS**

Course Key: MATM  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 03102400  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1

Mathematical Models with Applications is designed to build on the knowledge and skills for mathematics in previous grades and courses. Students learn to apply mathematics through experiences in personal finance, science, engineering, fine arts and social sciences. Students use algebraic, graphical, and geometric reasoning to recognize patterns and structure, model information, solve problems, and communicate solutions. Students will select from tools such as physical objects; manipulatives; technology, including graphing calculators, data collection devices, and computers; and paper and pencil; and from methods such as algebraic techniques, geometric reasoning, patterns and mental math to solve problems.

**MATH MODELS CBLI**

Course Key: MATMC  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 03102400  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1; LPAC Placement, Identified LEP

This course teaches all Math Models TEKS. Emphasis is placed on content based language instruction strategies to help students understand content while developing language skills.

**MATH MODELS INCLUSION**

Course Key: MATMI  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 03102400  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1; ARD Committee Placement

See Math Models

**MATH MODELS INCLUSION MODIFIED**

Course Key: MATMIM  
Length: YR  
Course Type: Regular  
Course Weight: Modified  
Service ID: 03102400  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1; ARD Committee Placement

See Math Models
### MATH MODELS MODIFIED

- **Course Key:** MATMM
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Modified
- **Counted in Rank GPA:** Yes
- **Credit Type:** State
- **Service ID:** 03102400
- **Course Key:** 03102400

### PRECALCULUS

- **Course Key:** PCAL
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Core
- **Counted in Rank GPA:** Yes
- **Credit Type:** State
- **Service ID:** 03101100
- **Course Key:** 03101100
- **Prerequisite(s):** Algebra 1, Geometry, Algebra 2

Precalculus is the preparation for calculus. The course is designed to strengthen and enhance conceptual understanding and mathematical reasoning used when modeling and solving mathematical and real-world problems. Students systematically work with functions and their multiple representations. The study of Precalculus deepens students' mathematical understanding and fluency with Algebra and Trigonometry and extends their ability to make connections and apply concepts and procedures at higher levels. Students investigate and explore mathematical ideas, develop multiple strategies for analyzing complex situations, and use technology to build understanding, make connections between representations, and provide support in solving problems.

### PRECALCULUS AP

- **Course Key:** PCALAP
- **Length:** YR
- **Course Type:** Adv. Placement
- **Course Weight:** Advanced
- **Counted in Rank GPA:** Yes
- **Credit Type:** State
- **Service ID:** A3100100
- **Course Key:** 03101100

**Recommended Prerequisite(s):** Geometry and Algebra 2

**AP Precalculus** prepares students for other college-level mathematics and science courses. Through regular practice, students build deep mastery of modeling and functions, and they examine scenarios through multiple representations. The course framework delineates content and skills common to college precalculus courses that are foundational for careers in mathematics, physics, biology, health science, social science, and data science. College credit can be achieved by demonstrating competence on the Advanced Placement exam. For more information visit https://apstudents.collegeboard.org/

**Advanced Placement Course:** Carefully review the Advanced Course Commitment guidelines before selecting this course.

### PRECALCULUS DUAL CRD ONRAMPS

- **Course Key:** PCALDO
- **Length:** YR
- **Course Type:** Dual Credit
- **Course Weight:** Advanced
- **Counted in Rank GPA:** Yes
- **Credit Type:** State
- **Service ID:** 03101100
- **Course Key:** 03101100

**Prerequisite(s):** Algebra 1, Geometry, Algebra 2

Dual enrollment course offered through The University of Texas at Austin and taught at the high school campus during school hours. Students will experience high-quality curriculum designed by the faculty at The University of Texas at Austin. Students can earn three hours of UT credit with feedback and assessment provided by UT course staff.

### M 305 G - DISCOVERY PRECALCULUS

In Discovery Pre-Calculus, students will deepen and extend their knowledge of functions, graphs, and equations from their high school algebra and geometry courses so they can successfully work with the concepts in a rigorous university-level calculus course.

**Dual Credit:** This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.
PRECALCULUS INCLUSION

Course Key: **PCALI**  
Length: YR  
Course Type: Regular  
Course Weight: Core

Service ID: 03101100  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1, Geometry, Algebra 2, ARD Committee Placement

See Pre-Calculus

STATISTICS

Course Key: **STATS**  
Length: YR  
Course Type: Regular  
Course Weight: Core

Service ID: 03102530  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Prerequisite(s): Algebra 1

Recommended Prerequisite(s): Geometry, Algebra 2

In Statistics, students will broaden their knowledge of variability and statistical processes. Students will study sampling and experimentation, categorical and quantitative data, probability and random variables, inference, and bivariate data. Students will connect data and statistical processes to real-world situations. In addition, students will extend their knowledge of data analysis.

STATISTICS AP

Course Key: **STATSA**  
Length: YR  
Course Type: Adv. Placement  
Course Weight: Advanced

Service ID: A3100200  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: Yes

Recommended Prerequisite(s): Geometry, Algebra 2

This course is a college level first course in probabilities and statistics designed to teach the student the fundamentals of determining and interpreting probabilities and statistics. Topics include methods of counting, computing probabilities, probability distributions, frequency distributions, sampling, data gathering, various methods of statistical analysis, z-scores, hypothesis testing, experiment design, and regression models. College credit can be achieved by demonstrating competence on the Advanced Placement exam. For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

STATISTICS INCLUSION

AQUATIC SCIENCE

Course Key: AQUA
Service ID: 03030000
Length: YR
Credits: 1.00
Course Type: Regular
Credit Type: State
Course Weight: Core
Counted in Rank GPA: Yes
Prerequisite(s): Biology

In Aquatic Science, students study the interactions of biotic and abiotic components in aquatic environments, including natural and human impacts on aquatic systems. Investigations and field work in this course may emphasize fresh water or marine aspects of aquatic science depending primarily upon the natural resources available for study near the school. Students who successfully complete Aquatic Science acquire knowledge about how the properties of water and fluid dynamics affect aquatic ecosystems and acquire knowledge about a variety of aquatic systems. Students who successfully complete Aquatic Science conduct investigations and observations of aquatic environments, work collaboratively with peers, and develop critical thinking and problem-solving skills.

AQUATIC SCIENCE CBLI

Course Key: AQUAC
Service ID: 03030000
Length: YR
Credits: 1.00
Course Type: Regular
Credit Type: State
Course Weight: Core
Counted in Rank GPA: Yes
Prerequisite(s): Biology, ARD Committee Placement

ASTRONOMY

Course Key: AST
Service ID: 03060100
Length: YR
Credits: 1.00
Course Type: Regular
Credit Type: State
Course Weight: Core
Counted in Rank GPA: Yes
Prerequisite(s): Algebra 1 and Integrated Physics and Chemistry (IPC) or Chemistry.

In Astronomy, students focus on patterns, processes, and relationships among astronomical objects in our universe. Students acquire basic astronomical knowledge and supporting evidence about sun-Earth-Moon relationships, the solar system, the Milky Way, the size and scale of the universe, and the benefits and limitations of exploration. Students conduct laboratory and field investigations to support their developing conceptual framework of our place in space and time.

HS-22
ASTRONOMY INCLUSION
Course Key: ASTI  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03060100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): Algebra 1 and Integrated Physics and Chemistry (IPC) or Chemistry.

See Astronomy

ASTRONOMY INCLUSION MODIFIED
Course Key: ASTIM  Length: YR  Course Type: Regular  Course Weight: Modified

BIOLOGY
Course Key: BIO  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03010200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): None

Students in Biology focus on patterns, processes, and relationships of living organisms through four main concepts: biological structures, functions, and processes; mechanisms of genetics; biological evolution; and interdependence within environmental systems.

BIOLOGY ADVANCED
Course Key: BIOH  Length: YR  Course Type: Honors  Course Weight: Advanced
Service ID: 03010200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): None

This course is highly recommended as a prerequisite for those students who plan on taking AP Biology and the AP exam as Juniors or Seniors. This course will explore the same topics as core Biology with more depth and complexity. Laboratory work, including dissections, collections, and student-designed experiments is required.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

BIOLOGY AP
Course Key: BIOA  Length: YR  Course Type: Adv. Placement  Course Weight: Advanced
Service ID: A3010200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Recommended Prerequisite(s): Biology, Chemistry

AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes - energy and communication, genetics, information transfer, ecology, and interactions. Upon completion of the course, students will be able to take the AP Biology exam. See the following website for more information: https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.
**BIOLOGY CBLI**

Course Key: **BIOC**  
Service ID: 03010200  
Length: YR  
Credits: 1.00  
Course Type: Regular  
Course Weight: Core  
Prerequisite(s): LPAC Placement, Identified LEP  
See Biology

This course teaches all Biology TEKS. Emphasis is placed on content based language instruction strategies to help students understand content while developing language skills.

**BIOLOGY INCLUSION**

Course Key: **BIOI**  
Service ID: 03010200  
Length: YR  
Credits: 1.00  
Course Type: Regular  
Course Weight: Core  
Prerequisite(s): ARD Committee Placement  
See Biology

**BIOLOGY INCLUSION MODIFIED**

Course Key: **BIOIM**  
Service ID: 03010200  
Length: YR  
Credits: 1.00  
Course Type: Regular  
Course Weight: Modified  
Prerequisite(s): ARD Committee Placement  
See Biology

**BIOLOGY MODIFIED**

Course Key: **BIOM**  
Service ID: 03010200  
Length: YR  
Credits: 1.00  
Course Type: Regular  
Course Weight: Modified  
Prerequisite(s): ARD Committee Placement  
See Biology

**BIOLOGY SKILLS T**

Course Key: **BIOST**  
Service ID: 03010207  
Length: YR  
Credits: 1.00  
Course Type: Regular  
Course Weight: Modified  
Prerequisite(s): ARD Committee Placement  
See Biology

**CAPSTONE SCIENCE SP TOP 2 ADV**

Course Key: **CAPSSTA**  
Service ID: 03060310  
Length: YR  
Credits: 1.00  
Course Type: Honors  
Course Weight: Advanced  
Prerequisite(s): One credit of high school science.
characteristics of matter, use of the Periodic Table, development of atomic theory, chemical bonding, chemical stoichiometry, gas laws, solution chemistry, acid-base chemistry, thermochemistry, and nuclear chemistry. Students will investigate how chemistry is an integral part of our daily lives.

**CHEMISTRY ADVANCED**

Prerequisite(s): None

Dual enrollment course offered through The University of Texas at Austin and taught at the high school campus during school hours. Students will experience high-quality curriculum designed by the faculty at The University of Texas at Austin. Students can earn four hours of UT credit with feedback and assessment provided by UT course staff.

CH301 - PRINCIPLES OF CHEMISTRY I & CH104M - INTRODUCTION TO CHEMICAL PRACTICES I (Lab)

Principles of Chemistry I addresses the nature of matter, energy, chemical reactions, and chemical thermodynamics. Introduction to Chemical Practices I, the course's lab component, provides an introduction to the techniques of modern experimental chemistry, and is designed to instill basic laboratory and analytical skills. Both courses are offered in 1 class period.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.
### CHEMISTRY INCLUSION

**Course Key:** CHEMI  
**Service ID:** 03040000  
**Length:** YR  
**Course Type:** Regular  
**Course Weight:** Core  
**Counted in Rank GPA:** Yes  
**Credits:** 1.00  
**Credit Type:** State  

Prerequisite(s): One Unit of H.S. Science and Algebra I, ARD Committee Placement  
See Chemistry

### CHEMISTRY INCLUSION MODIFIED

### CT ADVANCED ANIMAL SCIENCE

**Course Key:** CTAAS  
**Service ID:** 13000700  
**Length:** YR  
**Course Type:** Regular  
**Course Weight:** Core  
**Counted in Rank GPA:** Yes  
**Credits:** 1.00  
**Credit Type:** State  

Prerequisite(s): Biology and Chemistry or Integrated Physics and Chemistry (IPC); Algebra I and Geometry; and either Small Animal Management, Equine Science, or Livestock Production.

Advanced Animal Science examines the interrelatedness of human, scientific, and technological dimensions of livestock production. Instruction is designed to allow for the application of scientific and technological aspects of animal science through field and laboratory experiences. To prepare for careers in the field of animal science, students must attain academic skills and knowledge, acquire knowledge and skills related to animal systems, and develop knowledge and skills regarding career opportunities, entry requirements, and industry standards. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

### CT ANATOMY AND PHYSIOLOGY ADV

**Course Key:** CTANP  
**Service ID:** 13020600  
**Length:** YR  
**Course Type:** Honors  
**Course Weight:** Advanced  
**Counted in Rank GPA:** Yes  
**Credits:** 1.00  
**Credit Type:** State  

Prerequisite: one credit in biology and one credit in chemistry, Integrated Physics and Chemistry, or physics.

The Anatomy and Physiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Anatomy and Physiology will study a variety of topics, including the structure and function of the human body and the interaction of body systems for maintaining homeostasis.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

### CT ENGINEER DSGN PS ADVANCED

**Course Key:** CTEDPSH  
**Service ID:** 13037300  
**Length:** YR  
**Course Type:** Honors  
**Course Weight:** Advanced  
**Counted in Rank GPA:** Yes  
**Credits:** 1.00  
**Credit Type:** State  

Prerequisites: Algebra I, Geometry, and at least one credit in a Level 2 or higher course in the science, technology, engineering, and mathematics career cluster.

ENGINEERING DESIGN AND PROBLEM-SOLVING
The Engineering Design and Problem Solving course is the creative process of solving problems by identifying needs and then devising solutions. The solution may be a product, technique, structure, or process depending on the problem. Science aims to understand the natural world, while engineering seeks to shape this world to meet human needs and wants. Engineering design takes into consideration limiting factors or "design under constraint." Various engineering disciplines address a broad spectrum of design problems using specific concepts from the sciences and mathematics to derive a solution. The design process and problem solving are inherent to all engineering disciplines.

SEE ALSO: ENGINEERING DESIGN AND PRESENTATION II in the CTE STEM section of this guide.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

</table>

Prerequisite(s): Prerequisites: Algebra I, one credit in biology, and at least one credit in a course from the science, technology, engineering, and mathematics career cluster.

Recommended Prerequisite: Introduction to Engineering Design - PLTW

**ENGINEERING SCIENCE**

This survey course exposes students to major concepts they will encounter in a post-secondary engineering course of study. Topics include mechanisms, energy, statics, materials, and kinematics. They develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges, document their work and communicate solutions. Possible college credit available based on PLTW EOC exam score.

Prerequisite: one credit in biology and one credit in chemistry, Integrated Physics and Chemistry, or physics.

Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science.

Prerequisites: one credit in biology, one credit in chemistry, and at least one credit in a Level 2 or higher course from the health science career cluster.

The Pathophysiology course is designed for students to conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students in Pathophysiology will study disease processes and how humans are affected. Emphasis is placed on prevention and treatment of disease. Students will differentiate between normal and abnormal physiology.

Prerequisites: Prerequisite: Biology, Chemistry, Integrated Physics and Chemistry (IPC), or Physics.

**SCIENTIFIC RESEARCH AND DESIGN 2**

Scientific Research and Design is a broad-based course designed to allow districts and schools considerable flexibility to develop local curriculum to supplement any program of study or coherent sequence. The course has the components of any rigorous scientific or engineering program of study from the problem identification, investigation design, data collection, data analysis, and presentation.
Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**CT SCIENTIFIC RESEARCH DSGN ADV**

Course Key: CTSCIR1H  Length: YR  Course Type: Honors  Course Weight: Advanced
Service ID: 13037200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

*This course is paired with Digital Electronics and is offered at the FRC.*

**SCIENTIFIC RESEARCH AND DESIGN ADVANCED**

Scientific Research and Design is a broad-based course designed to allow districts and schools considerable flexibility to develop local curriculum to supplement any program of study or coherent sequence. The course has the components of any rigorous scientific or engineering program of study from the problem identification, investigation design, data collection, data analysis, formulation, and presentation of the conclusions. All of these components are integrated with the career and technical education emphasis of helping students gain entry-level employment in high-skill, high-wage jobs and/or continue their education.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**EARTH SYSTEMS SCIENCE**

Course Key: ESS  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03060200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Required prerequisites: Algebra I and two credits of high school science.

This course is offered only at Richarte High School. Earth and Space Science is a course designed to build on students' prior scientific and academic knowledge and skills to develop understanding of Earth's system in space and time. These systems (the atmosphere, hydrosphere, geosphere, and biosphere) interact through time to produce the Earth's landscapes, climate, and resources. Students explore the geologic history of individual dynamic systems through the flow of energy and matter, their current states, and how these systems affect and are affected by human use.

The goal of the AP Environmental Science course is to provide students with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world, to identify and analyze environmental problems both natural and human-made, to evaluate the relative risks associated with these problems, and to examine alternative solutions for resolving and/or preventing them. Environmental Science is interdisciplinary and embraces a wide variety of topics from different areas of study. These areas include environmental problems, matter and energy, ecosystems, biodiversity, populations, water resources and pollution, air pollution, climate geology, and waste. For additional information see https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

INTEGRATED PHYSICS CHEMISTRY

Course Key: IPC
Service ID: 03060201
Length: YR
Credits: 1.00
Course Type: Regular
Credit Type: State
Course Weight: Core
Counted in Rank GPA: Yes
Prerequisite(s): None

In Integrated Physics and Chemistry, students conduct laboratory and field investigations, use engineering practices, use scientific practices during investigation, and make informed decisions using critical thinking and scientific problem solving. This course integrates the disciplines of physics and chemistry in the following topics: force, motion, energy, and matter.

PHYSICS

Course Key: PHY
Service ID: 03050000
Length: YR
Credits: 1.00
Course Type: Regular
Credit Type: State
Course Weight: Core
Counted in Rank GPA: Yes
Recommended Prerequisite/Corequisite: Algebra I.

In Physics, students conduct laboratory and field investigations, use scientific practices during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include: laws of motion, changes within physical systems and conservation of energy and momentum, forces, characteristics and behavior of waves, and electricity and magnetism. Students will apply conceptual knowledge and collaborative skills to experimental design, implementation, and interpretation.

PHYSICS 1 AP

Course Key: PHY1A
Service ID: A3050003
Length: YR
Credits: 1.00
Course Type: Adv. Placement
Credit Type: State
Course Weight: Advanced
Counted in Rank GPA: Yes
Recommended Prerequisite(s): Algebra I, Geometry, and credit for or concurrent enrollment in Algebra II

AP Physics 1 is an algebra-based introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore topics such as Newtonian mechanics (including rotational motion); work, energy and power; mechanical waves and sound; and introductory simple circuits. The course is intended for students who want to study physics as a basis for more advanced work in life science, medicine, geology, and related areas or as a component in a non-science college program that has a science requirement. Upon completion, students will be offered the opportunity to take the AP Physics One exam. See https://apstudents.collegeboard.org/
Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

</tbody>
</table>

Recommended Prerequisite(s): Credit for or concurrent enrollment in Pre-Calculus and earned credit in AP Physics I

AP Physics 2 is an algebra-based, introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore topics such as fluid statics and dynamics; thermodynamics with kinetic theory; PV diagrams and probability; electrostatics; electrical circuits with capacitors; magnetic fields; electromagnetism; physical and geometric optics; and quantum, atomic, and nuclear physics. See https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): Credit for or concurrent enrollment in Calculus

AP Physics C: Mechanics is equivalent to a calculus-based, college-level physics course, especially appropriate for students planning to specialize or major in physical science or engineering. It is offered concurrently with AP Physics C: Electricity and Magnetism. The course explores topics such as kinematics; Newton's laws of motion; work, energy and power; systems of particles and linear momentum; circular motion and rotation; oscillations and gravitation; electrostatics; conductors; capacitors and dielectrics; electric circuits; magnetic fields; and electromagnetism. Introductory differential and integral calculus is used throughout the course. For additional information see https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): Algebra I, Geometry

Recommended Prerequisite(s): Algebra II or Pre-Calculus

Dual enrollment course offered through The University of Texas at Austin and taught at the high school campus during school hours. Students will experience high-quality curriculum designed by the faculty at The University of Texas at Austin. Students can earn up to four hours of UT credit with feedback and assessment provided by UT course staff.

PHY302K - MECHANICS, HEAT, AND SOUND: GENERAL PHYSICS TECHNICAL COURSE I
PHY102M - LABORATORY FOR PHYSICS 302K

Mechanics, Heat, and Sound introduces big ideas in physics, such as Newtonian mechanics, which describes objects changing their state of motion because of forces causing them to accelerate. Taken together, the topics reinforce the general idea that the behavior of many objects in the world can be described precisely with simple mathematics.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

Prerequisite(s): ARD Committee Placement

These Science courses study science-based concepts related specifically to independent daily living and employment. Attention is given to relating science to home and job practices. Activities will foster student understanding of their roles and responsibilities in adult life. Experiences are "hands-on" with an emphasis on cooperative learning strategies. As the student moves through the levels of instruction, skills build and expand to promote transition to independent living. The scope of this course and TEKS mastered are determined by the student's individual education plan (IEP).

Local Credit Course: Does not count toward state graduation requirements.

Prerequisite(s): ACC students must attain a qualifying TSI score and course availability is determined in collaboration with the community college.

Recommended prerequisite: One credit of high school science.

### SPECIAL TOPICS IN SCIENCE 1

Dual credit course offered through Austin Community College and taught at the high school campus during school hours. Students earn both high school and college credit upon completion for the following ACC course(s):

---

**Note:** The information provided is a transcription of the text content found in the image. Any specific formatting or layout of the original document has been translated into a plain text format for clarity and readability. Each course's details, such as course code, type, credits, and prerequisites, are accurately represented as per the original document.
BIOL 1308 - Biology Fundamentals

In Specialized Topics in Science, students have the opportunity to develop a greater understanding of science content beyond what is taught in other Texas Essential Knowledge and Skills-based science courses while utilizing science and engineering practices. Students understand the value and role of curiosity in any discipline of science. The specialized topic of study may originate from local or global phenomena, student interest, or teacher specialties. The emphasis of study may vary such as theoretical science, citizen science, science investigations, science careers, specialized disciplines of science, designing innovations, the ethics of science, or history of science.

This course will align to the Austin Community College Biology 1308 course. The description for BIOL 1308 states it is an introduction course to basic biological concepts including the metric system, physical and chemical properties of life, cell structure and function, cell reproduction, and metabolism.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.
Prerequisite(s): Course application with proposal to be approved.

**CAPSTONE ECONOMICS ADVANCED STUDIES**

Capstone independent study courses will greatly enhance the opportunities for the production of advanced academic products through guided research. A project that consists of the long-term development of a question or idea that is significant to professionals in the academic area of interest will be the focal point of these courses. Sophisticated research methods and technology appropriate to the field of study will be used. The project must demonstrate creative mastery of content through a final product and presentation of professional quality to an appropriate audience. Students who successfully complete a project will earn independent study credit in the chosen discipline.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**CAPSTONE SOCIAL STUDIES ADV**

Prerequisite(s): None

The Personal Financial Literacy and Economics Course emphasizes the economic way of thinking, which serves as a framework for the personal financial decision-making opportunities introduced in the course. Students will demonstrate the ability to anticipate and address financial challenges as these challenges occur over their lifetime. In addition, students are introduced to common economic and personal financial planning terms and concepts. As a result of learning objective concepts and integrating subjective e information, students gain the ability to lead productive and financially self-sufficient lives. This course meets the half-credit economics requirement for graduation.

Prerequisite(s): None
Economics with Emphasis on the Free Enterprise System and Its Benefits is the culmination of the economic content and concepts studied from Kindergarten through required secondary courses. The focus is on the basic principles concerning production, consumption, and distribution of goods and services (the problem of scarcity) in the United States and a comparison with those in other countries around the world. Students analyze the interaction of supply, demand, and price. Students will investigate the concepts of specialization and international trade, economic growth, key economic measurements, and monetary and fiscal policy. Students will study the roles of the Federal Reserve System and other financial institutions, government, and businesses in a free enterprise system. Types of business ownership and market structures are discussed. The course also incorporates instruction in personal financial literacy. Students apply critical-thinking skills using economic concepts to evaluate the costs and benefits of economic issues.

ETHNIC STUDIES : MEX AM CBLI

Prerequisite(s): LPAC Placement, Identified LEP

ETHNIC STUDIES - MEXICAN AMERICAN STUDIES (CBLI)

This course teaches all Ethnic Studies - Mexican American Studies TEKS. Emphasis is placed on content-based language instruction strategies to help students understand content while developing language skills

ETHNIC STUDIES : MEXICAN AMER

Prerequisite(s): None

In Ethnic Studies: Mexican American Studies, an elective course, students learn about the history and cultural contributions of Mexican Americans. Students explore history and culture from an interdisciplinary perspective. The course emphasizes events in the 20th and 21st centuries, but students will also engage with events prior to the 20th century.

To support the teaching of the essential knowledge and skills, the use of a variety of rich primary and secondary source material such as biographies, autobiographies, landmark cases of the U.S. Supreme Court, novels, speeches, letters, diaries, poetry, songs, and artwork is encouraged. Motivating resources are available from museums, historical sites, presidential libraries, and local and state preservation societies.

ETHNIC STUDIES: AFRICAN AMER

Prerequisite(s): None

In Ethnic Studies: African American Studies, an elective course, students learn about the history and cultural contributions of African Americans. This course is designed to assist students in understanding issues and events from multiple perspectives. This course develops an understanding of the historical roots of African American culture, especially as it pertains to social, economic, and political interactions within the broader context of United States history. It requires an analysis of important ideas, social and cultural values, beliefs, and traditions. Knowledge of past achievements provides citizens of the 21st century with a broader context within which to address the many issues facing the United States.

To support the teaching of the essential knowledge and skills, the use of a variety of rich primary and secondary source material such as biographies, autobiographies, landmark cases of the U.S. Supreme Court, novels, speeches, letters, diaries, poetry, songs, and artwork is encouraged. Resources are available from museums, historical sites, presidential libraries, and local and state preservation societies.

EUROPEAN HISTORY AP

Prerequisite(s): None

AP European History is designed to be the equivalent of a two-semester introductory college or university European history course. In AP European History students investigate significant events, individuals, developments, and processes in four historical periods from approximately 1450 to the present. Students develop and use the same skills, practices, and methods
employed by historians: analyzing historical evidence; contextualization; comparison; causation; change and continuity over
time; and argument development. The course also provides six themes that students explore throughout the course in order to
make connections among historical developments in different times and places: interaction of Europe and the world; poverty
and prosperity; objective knowledge and subjective visions; states and other institutions of power; individual and society; and
national and European identity. For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

HUMAN GEOGRAPHY (WORLD) AP

</tr>
</tbody>
</table>

Prerequisite(s): None

The AP Human Geography course is equivalent to an introductory college-level course in human geography. The course
introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and
alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic
organization and its environmental consequences. They also learn about the methods and tools geographers use in their
research and applications. This course counts as World Geography credit. For more information visit
https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): None

AP Macroeconomics is an introductory college-level course that focuses on the principles that apply to an economic system as
a whole. The course places particular emphasis on the study of national income and price-level determination; it also develops
students' familiarity with economic performance measures, the financial sector, stabilization policies, economic growth, and
international economics. Students learn to use graphs, charts, and data to analyze, describe, and explain economic concepts.
For more information visit https://apstudents.collegeboard.org/

AP Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): None

INFLUENCE OF OLD/NEW TESTAMENT BIBLE ON WESTERN CIVILIZATION

Influence of the Old Testament (OT) and New Testament (NT) Bible on American Civilization will examine OT/NT Bible stories
and teachings that have influenced the development of the United States. In the course, students will reflect on their
knowledge of American civilization as they read and study from the course text and from their own translation of the OT/NT
Bible. Students will analyze literary forms and contents of the Bible so they have a better understanding of its influences on
literature, art, and culture.

Focus will be placed on analytical writing. The course will be taught in an objective, academic manner with the focus on the
Bible's role in American life, language, and culture. The course will neither promote nor disparage religion and will not be
taught from a particular sectarian point of view. Instructional materials and lessons that are of a devotional nature will not be
used. NOTE: This course will be offered on campuses where there is sufficient student interest and instructor availability.

PERSONAL FINANCIAL LITERACY

<table>

</table>
Personal Financial Literacy is designed to be an interactive and research-based course. The course will teach students to apply critical-thinking and problem-solving skills to analyze decisions involving earning and spending, saving and investing, credit and borrowing, insuring and protecting, and college and post-secondary education and training. There are many references to conducting a cost-benefit analysis for spending and investing decisions. Students evaluate the necessity of the purchase, the quality or value of the purchase or investment compared to other alternatives, and the total cost of acquisition, particularly in the context of financing options. Students also understand the power of both compound growth on investments and compound interest on debt and how these concepts affect the ability to build wealth over time.

**PSYCHOLOGY**

Course Key: **PSYCH**  
Service ID: 03350100  
Length: SM  
Credits: 0.50  
Course Type: Regular  
Course Weight: Core  
Prerequisite(s): None

In Psychology, an elective course, students study the science of behavior and mental processes. Students examine the full scope of the science of psychology, such as the historical framework, methodologies, human development, motivation, emotion, sensation, perception, personality development, cognition, learning, intelligence, biological foundations, mental health, and social psychology.

**PSYCHOLOGY AP**

Course Key: **PSYCHA**  
Service ID: A3350100  
Length: YR  
Credits: 1.00  
Course Type: Adv. Placement  
Course Weight: Advanced  
Prerequisite(s): None

This course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, students employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas. For more information visit [https://apstudents.collegeboard.org/](https://apstudents.collegeboard.org/)

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**PSYCHOLOGY MODIFIED**

Course Key: **PSYCHM**  
Service ID: 03350100  
Length: SM  
Credits: 0.50

**SOCIOLOGY**

Course Key: **SOC**  
Service ID: 03370100  
Length: SM  
Credits: 0.50  
Course Type: Regular  
Course Weight: Core  
Prerequisite(s): None

Sociology, an elective course, is an introductory study in social behavior and organization of human society. This course will describe the development of the field as a social science by identifying methods and strategies of research leading to an understanding of how the individual relates to society and the ever changing world. Students will also learn the importance and role of culture, social structure, socialization, and social change in today's society.

**SOCIOLOGY MODIFIED**

Course Key: **SOCM**  
Service ID: 03370100  
Length: SM  
Credits: 0.50  
Course Type: State  
Course Weight: Modified  
Prerequisite(s): None

See Sociology
In United States Government, the focus is on the principles and beliefs upon which the United States was founded and on the structure, functions, and powers of government at the national, state, and local levels. This course is the culmination of the civic and governmental content and concepts studied from Kindergarten through required secondary courses. Students learn major political ideas and forms of government in history. A significant focus of the course is on the U.S. Constitution, its underlying principles and ideas, and the form of government it created. Students analyze major concepts of republicanism, federalism, checks and balances, separation of powers, popular sovereignty, and individual rights and compare the U.S. system of government with other political systems. Students identify the role of government in the U.S. free enterprise system and examine the strategic importance of places to the United States. Students analyze the impact of individuals, political parties, interest groups, and the media on the American political system, evaluate the importance of voluntary individual participation in a constitutional republic, and analyze the rights guaranteed by the U.S. Constitution. Students examine the relationship between governmental policies and the culture of the United States. Students identify examples of government policies that encourage scientific research and use critical-thinking skills to create a product on a contemporary government issue.

**UNITED STATES GOVERNMENT AP**

In United States History Studies Since 1877, which is the second part of a two-year study that begins in Grade 8, students study the history of the United States from 1877 to the present. The course content is based on the founding documents of the U.S. government, which provide a framework for its heritage. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements, including civil rights. Students examine the impact of geographic factors on major events and eras and analyze their causes and effects. Students examine the impact of constitutional issues on American society, evaluate the dynamic relationship of the three branches of the federal government, and analyze efforts to expand the democratic process. Students describe the relationship between the arts and popular culture and the times during which they were created. Students analyze the impact of technological innovations on American life. Students use critical-thinking skills and a variety of primary and secondary source material to explain and apply different methods that historians use to understand and interpret the past, including multiple points of view and historical context.

**UNITED STATES HISTORY AP**

In United States History Studies Since 1877, which is the second part of a two-year study that begins in Grade 8, students study the history of the United States from 1877 to the present. The course content is based on the founding documents of the U.S. government, which provide a framework for its heritage. Historical content focuses on the political, economic, and social events and issues related to industrialization and urbanization, major wars, domestic and foreign policies, and reform movements, including civil rights. Students examine the impact of geographic factors on major events and eras and analyze their causes and effects. Students examine the impact of constitutional issues on American society, evaluate the dynamic relationship of the three branches of the federal government, and analyze efforts to expand the democratic process. Students describe the relationship between the arts and popular culture and the times during which they were created. Students analyze the impact of technological innovations on American life. Students use critical-thinking skills and a variety of primary and secondary source material to explain and apply different methods that historians use to understand and interpret the past, including multiple points of view and historical context.
approximately 1491 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical comparisons; and utilizing reasoning about contextualization, causation, and continuity and change over time. The course also provides seven themes that students explore throughout the course in order to make connections among historical developments in different times and places: American and national identity; migration and settlement; politics and power; work, exchange, and technology; America in the world; geography and the environment; and culture and society. ACC course offered on high school campuses during school hours. Students earn both high school and college credit upon completion for the following ACC course(s):

HIST 1302 - United States History from 1877 (High school credit awarded for US History)

This course is a survey of American history from 1877 to the present and partially fulfills the legislative requirement. While it is primarily intended to be a lecture course, we will devote a substantial amount of class time to discussion and questions. This class offers students opportunities to pursue historical topics of individual interest and enhance their reading, writing, and critical thinking skills.

Note: Accelerated course awards a full year of credit in one semester. Only one semester of this credit will count toward class rank.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

**WORLD GEOGRAPHY**

Course Key: **WG**  
Service ID: 03320100  
Credits: 1.00  
Course Type: Regular  
Course Weight: Core  
Counted in Rank GPA: Yes

Prerequisite(s): None

In World Geography Studies, students examine people, places, and environments at local, regional, national, and international scales from the spatial and ecological perspectives of geography. Students describe the influence of geography on events of the past and present with emphasis on contemporary issues. A significant portion of the course centers around the physical processes that shape patterns in the physical environment; the characteristics of major landforms, climates, and ecosystems and their interrelationships; the political, economic, and social processes that shape cultural patterns of regions; types and patterns of settlement; the distribution and movement of the world population; relationships among people, places, and environments; and the concept of region. Students analyze how location affects economic activities in different economic systems. Students identify the processes that influence political divisions of the planet and analyze how different points of view affect the development of public policies. Students compare how components of culture shape the characteristics of regions and analyze the impact of technology and human modifications on the physical environment. Students use problem-solving and decision-making skills to ask and answer geographic questions.

WORLD HISTORY

Course Key: WH  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03340400  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): None

World History Studies is a survey of the history of humankind. Due to the expanse of world history and the time limitations of the school year, the scope of this course should focus on "essential" concepts and skills that can be applied to various eras, events, and people within the standards in subsection (c) of this section. The major emphasis is on the study of significant people, events, and issues from the earliest times to the present. Traditional historical points of reference in world history are identified as students analyze important events and issues in western civilization as well as in civilizations in other parts of the world. Students evaluate the causes and effects of political and economic imperialism and of major political revolutions since the 17th century. Students examine the impact of geographic factors on major historic events and identify the historic origins of contemporary economic systems. Students analyze the process by which constitutional governments evolved as well as the ideas from historic documents that influenced that process. Students trace the historical development of important legal and political concepts. Students examine the history and impact of major religious and philosophical traditions. Students analyze the connections between major developments in science and technology and the growth of industrial economies, and they use the process of historical inquiry to research, interpret, and use multiple sources of evidence.

WORLD HISTORY AP

Course Key: WHA  Length: YR  Course Type: Adv. Placement  Course Weight: Advanced
Service ID: A3370100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes

Prerequisite(s): None

In AP World History: Modern, students investigate significant events, individuals, developments, and processes from 1200 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation.

For more information visit https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

COMPUTER SCIENCE A LOTÉ AP

Course Key: **CSCIALA**  Length: **YR**  Course Type: **Adv. Placement**  Course Weight: **Advanced**
Service ID: **A3580120**  Credits: **1.00**  Credit Type: **State**  Counted in Rank GPA: **No**
Corequisite(s): Computer Science A Math AP

See AP Computer Science under Mathematics for course description. Students enrolled in AP Computer Science also receive 1 credit in mathematics.

NOTE REGARDING COMPUTER SCIENCE & LOTÉ GRADUATION REQUIREMENTS:

The State Board of Education has approved specific computer sciences to substitute for LOTÉ credits. Georgetown ISD offers the following approved LOTÉ substitution courses: Computer Science Principles AP, Computer Science I, and Computer Science A AP. Students must complete 2 courses in Computer Science to satisfy the graduation requirement.

Please note that outside of Texas public universities, not all colleges and universities accept computer science for admission purposes as satisfying the LOTÉ requirement. Additionally, once admitted colleges and universities may have traditional LOTÉ graduation requirements. Students are encouraged to reach out to their prospective college(s) before enrollment in these courses for information about college admissions and graduation requirements.

NOTE REGARDING GPA/RANK CREDITS:

Computer Science A AP is a unique course that awards 1.0 credit for LOTÉ and 1.0 credit for Math. Students will be awarded and transcribed a numeric grade for the math credit and a Pass/Fail for the LOTÉ credit. Pass/fail grades do not count in rank GPA.

Beginning with the graduating class of 2025: Students in the graduating class of 2025 or later may elect to have the numeric grade awarded and transcribed for the LOTÉ credit and a Pass/Fail for the Math credit by submitting a request within two weeks after the end of the school year in which the student has taken the class. Both numeric semester grades will be transferred from Math to LOTÉ and cannot be split between areas. This request must be received and processed before rank and GPA are run by the district.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

FRENCH 1

Course Key: **FREN1**  Length: **YR**  Course Type: **Regular**  Course Weight: **Core**
Service ID: **03410100**  Credits: **1.00**  Credit Type: **State**  Counted in Rank GPA: **Yes**
Prerequisite(s): None

This course provides an introduction to the five Cs: communication (speaking, listening, reading, writing); culture (understanding the people, practices, products and perspectives); connections (with other subject areas); comparisons (one’s own culture and language with another); and communities (using language beyond the school setting for personal and career development). Students will begin practicing their interpersonal, interpretive, and presentation communication skills in their target language.

FRENCH 2

Course Key: **FREN2**  Length: **YR**  Course Type: **Regular**  Course Weight: **Core**
Service ID: **03410200**  Credits: **1.00**  Credit Type: **State**  Counted in Rank GPA: **Yes**
Prerequisite(s): Credit in Level I

This course will enable students to further explore the five C’s (communication, culture, connections, comparisons, and communities), completing the novice level of proficiency. Students will continue to work on their interpersonal, interpretive, and presentation skills in order to effectively communicate with others. This course aims to provide students with a well-rounded exploration and foundation of their respective target language.
## VI. Languages Other Than English

### FRENCH 2 ADVANCED

| Course Key: | FREN2H |
| Length: | YR |
| Credits: | 1.00 |
| Course Type: | Honors |
| Course Weight: | Advanced |
| Credit Type: | State |
| Counted in Rank GPA: | Yes |
| Service ID: | 03410200 |

Prerequisite(s): Credit in Level I

This course will further explore the five C’s, pushing into the intermediate level of proficiency. Students will begin strengthening their interpersonal, interpretive, and presentation skills in order to communicate with different audiences. Students will sharpen their global understanding of the language by analyzing authentic materials. Students will begin to practice strategies for AP and other college placement exams. It is strongly recommended that students planning to take a level III, to select level II Advanced in order to be better prepared. Although not exclusively, the course instructor will use the target language during instruction.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

### FRENCH 3 ADVANCED

| Course Key: | FREN3H |
| Length: | YR |
| Credits: | 1.00 |
| Course Type: | Honors |
| Course Weight: | Advanced |
| Credit Type: | State |
| Counted in Rank GPA: | Yes |
| Service ID: | 03410300 |

Prerequisite(s): Credit in Levels I and II

This course will primarily focus on strengthening students' interpersonal, interpretive, and presentation skills. This course will stress students' abilities to effectively utilize different forms of communication. Students will be provided opportunities to practice their real world survival skills both in and outside of the classroom. This course will contain a component of AP curriculum and AP-style tasks in an attempt to prepare students for their respective AP Language and Culture exam. In an attempt to further prepare students for their respective AP language exam, a higher amount of the target language will be spoken by the course instructor.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

### FRENCH 4 LANGUAGE & CULTURE AP

| Course Key: | FREN4A |
| Length: | YR |
| Credits: | 1.00 |
| Course Type: | Adv. Placement |
| Course Weight: | Advanced |
| Credit Type: | State |
| Counted in Rank GPA: | Yes |
| Service ID: | A3410100 |

Prerequisite(s): Successful completion of Levels I, II, and III

The AP French Language and Culture course emphasizes communication (understanding and being understood by others) by applying the interpersonal, interpretive, and presentational modes of communication in real-life situations. This includes vocabulary usage, language control, communication strategies, and cultural awareness. The AP French Language and Culture course strives not to overemphasize grammatical accuracy at the expense of communication. To best facilitate the study of language and culture, the course is taught almost exclusively in French.

The AP French Language and Culture course engages students in an exploration of culture in both contemporary and historical contexts. The course develops students' awareness and appreciation of cultural products (e.g., tools, books, music, laws, conventions, institutions); practices (patterns of social interactions within a culture); and perspectives (values, attitudes, and assumptions). For additional AP French information, go to: https://apstudents.collegeboard.org

Note: Students who need Level V or VI of a LOTE course may request it as needed. Please see your counselor for additional information.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

### FRENCH 5

| Course Key: | FREN5 |
| Length: | YR |
| Credits: | 1.00 |
| Course Type: | Regular |
| Course Weight: | Core |
| Credit Type: | State |
| Counted in Rank GPA: | Yes |
| Service ID: | 03410500 |

Prerequisite(s): Level IV or appropriate district-approved placement test.

Level V of World Languages continues to deliver world language instruction of which the overarching goal is communication. Students will engage in conversations, present information to an audience, and interpret culturally authentic materials in the target language. Students will also use the language to connect with other content areas, to make comparisons with their
own language and culture, and to participate in communities beyond the classroom. Exclusive use of the target language by both teacher and student is expected at this fifth stage of language learning. Students study and investigate real world topics of interest and delve even deeper into the analysis of the products, practices and perspectives of the target culture(s) to make meaningful connections with their own culture.

GERMAN 1

Course Key: GER1  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03420100  Credits: 1.00  Credit Type: State  Counted in Rank GPA: Yes
Prerequisite(s): None

This course provides an introduction to the five Cs: communication (speaking, listening, reading, writing); culture (understanding the people, practices, products and perspectives); connections (with other subject areas); comparisons (one's own culture and language with another); and communities (using language beyond the school setting for personal and career development). Students will begin practicing their interpersonal, interpretive, and presentation communication skills in their target language.

Prerequisite(s): Successful completion of Levels I, II, and III

The AP Spanish Language and Culture course emphasizes communication (understanding and being understood by others) by applying the interpersonal, interpretive, and presentational modes of communication in real-life situations. This includes vocabulary usage, language control, communication strategies, and cultural awareness. The AP Spanish Language and Culture course strives not to overemphasize grammatical accuracy at the expense of communication. To best facilitate the study of language and culture, the course is taught almost exclusively in Spanish.

The AP Spanish Language and Culture course engages students in an exploration of culture in both contemporary and historical contexts. The course develops students' awareness and appreciation of cultural products (e.g., tools, books, music, laws, conventions, institutions); practices (patterns of social interactions within a culture); and perspectives (values, attitudes, and assumptions). For additional information go to: https://apstudents.collegeboard.org

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

**SPANISH 5 LIT & CULTURE AP**

</table>

Prerequisite(s): AP Spanish Language and Culture IV or appropriate district-approved placement test.

The AP Spanish Literature and Culture course uses a thematic approach to introduce students to representative texts (short stories, novels, poetry, and essays) from Peninsular Spanish, Latin American, and United States Hispanic literature. Students develop proficiencies across the full range of communication modes (interpersonal, presentational, and interpretive), thereby honing their critical reading and analytical writing skills. Literature is examined within the context of its time and place, as students reflect on the many voices and cultures present in the required readings. The course also includes a strong focus on cultural connections and comparisons, including exploration of various media (e.g., art, film, articles, literary criticism). For additional information go to: https://apstudents.collegeboard.org/

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Recommended Prerequisite(s): ARD Committee Placement; Students must be 16 years of age and have reliable transportation to enroll in this program. Students must average a minimum 10 hours of work per week.

Career Preparation provides opportunities for students to participate in a learning experience that combines classroom instruction with paid business and industry employment experiences and supports strong partnerships among school, business and community stakeholders. The goal is to prepare students with a variety of skills for a fast-changing workplace. This instructional arrangement should be an advanced component of a student's individual program of study. Students are taught employability skills, which include job-specific skills applicable to their training station, job interview techniques, communication skills, financial and budget activities, human relations and portfolio development. Career preparation is relevant, rigorous and supports student attainment of academic standards and effectively prepares students for college and career success.

Career preparation is relevant, rigorous and supports student attainment of academic standards and effectively prepares students for college and career success.

**CT GEN EMPLOY SKILLS MODIFIED**

Recommended Prerequisite(s): ARD Committee Placement
This course provides students with knowledge of the prerequisite skills for general employment as well as the means of obtaining those skills. Employability skills include fundamentals of maintenance of personal appearance and grooming. The course also includes the knowledge, skills, and attitudes that allow employees to get along with their co-workers, make important work-related decisions, and become strong members of the work team. Discovering job possibilities that link skills, abilities, interests, values, needs, and work environment preferences is a part of the process of obtaining employability skills and abilities and is experiential learning that takes place over time.

This course is designed to guide students in obtaining the knowledge and the needed employability skills that are transferable among a variety of jobs and careers and are considered essential in any employment situation. Students will learn and apply basic knowledge of what is expected in the workplace.

PROJECT BASED RESEARCH 1

Prerequisite(s): None

Project-Based Research is a course for students to research a real-world problem. Students are matched with a mentor from the business or professional community to develop an original project on a topic related to career interests. Students use scientific methods of investigation to conduct in-depth research, compile findings, and present their findings to an audience that includes experts in the field. To attain academic success, students must have opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

</table>

Recommended Prerequisite(s): Principles of Agriculture, Food, & Natural Resources

**AGRICULTURAL MECHANICS AND METAL TECHNOLOGIES**

Agricultural Mechanics and Metal Technologies is designed to develop an understanding of agricultural mechanics as it relates to safety and skills in tool operation, electrical wiring, plumbing, carpentry, fencing, concrete, and metal working techniques. To prepare for careers in agricultural power, structural, and technical systems, students must attain academic skills and knowledge; acquire technical knowledge and skills related to power, structural, and technical agricultural systems and the industry; and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer knowledge and skills in a variety of settings.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.

Recommended Prerequisite(s): Ag Mechanics and Metal Technologies

**AGRICULTURAL STRUCTURES DESIGN AND FABRICATION**

To be prepared for careers in agricultural power, structural, and technical systems, students need to attain academic skills and knowledge, acquire technical knowledge and skills related to agricultural power, structural and technical systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, industry certifications, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply and transfer their knowledge and technical skills in a variety of settings. This course is designed to develop an understanding of agricultural power systems, metal fabrications techniques, agricultural structures, electrical controls, and land and water management.
systems.

**CT AGR EQUIPMENT DESIGN**

Course Key: CTAGM3  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13002350  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Recommended Prerequisite(s): Agricultural Mechanics and Metal Technologies

AGRICULTURAL EQUIPMENT DESIGN AND FABRICATION

In Agricultural Equipment Design and Fabrication, students will acquire knowledge and skills related to the design and fabrication of agricultural equipment. To prepare for careers in mechanized agriculture and technical systems, students must attain knowledge and skills related to agricultural equipment design and fabrication. To prepare for success, students reinforce, apply, and transfer their academic knowledge and technical skills in a variety of settings.

**CT EQUINE SCIENCE**

Course Key: CTEQUIN  Length: SM  Course Type: Regular  Course Weight: Core
Service ID: 13000500  Credits: 0.50  Credit Type: State  Counted in Rank GPA: No

Recommended Corequisite(s): Small Animal Management

In Equine Science, students will acquire knowledge and skills related to equine animal systems and the equine industry. Equine Science may address topics related to horses, donkeys, and mules. To prepare for careers in the field of animal science, students must enhance academic knowledge and skills, acquire knowledge and skills related to animal systems, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

**CT FLORAL DESIGN**

Course Key: CTFD  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13001800  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): None (Course satisfies fine arts graduation requirement)

FLORAL DESIGN

Floral Design is designed to develop students' ability to identify and demonstrate the principles and techniques related to floral design as well as develop an understanding of the management of floral 50 enterprises. Through the analysis of artistic floral styles and historical periods, students will develop respect for the traditions and contributions of diverse cultures. Students will respond to and analyze floral designs, thus contributing to the development of lifelong skills of making informed judgments and evaluations. To prepare for careers in floral design, students must attain academic skills and knowledge, acquire technical knowledge and skills related to horticultural systems, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills and technologies in a variety of settings.

**CT FLORAL DESIGN ADVANCED**

Course Key: CTFDA  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: N1300270  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Floral Design

ADVANCED FLORAL DESIGN

In this course, students build on the knowledge from the Floral Design course and are introduced to more advanced floral design concepts, with an emphasis on specialty designs and specific occasion planning. This course focuses on building skills in advanced floral design and providing students with a thorough understanding of the design elements and planning techniques used to produce unique specialty floral designs that support the goals and objectives of a specific occasion or event.

**CT LIVESTOCK PRODUCTION**

Course Key: CTLP  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13000300  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): None
LIVESTOCK PRODUCTION

In Livestock Production, students will acquire knowledge and skills related to livestock and the livestock production industry. Livestock Production may address topics related to beef cattle, dairy cattle, swine, sheep, goats, and poultry. To prepare for careers in the field of animal science, students must attain academic skills and knowledge, acquire knowledge and skills related to animal systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings.

CT PRACTICUM AG FOOD NAT RES

Course Key: CTPRAG  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13002500  Credits: 2.00  Credit Type: State  Counted in Rank GPA: No

Recommended prerequisite: a minimum of one credit from the courses in the Agriculture, Food, and Natural Resources Career Cluster.

PRACTICUM IN AGRICULTURE, FOOD AND NATURAL RESOURCES

The practicum is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories.

CT PRACTICUM EX AG FOOD NATRES

Course Key: CTPRAGE  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13002505  Credits: 3.00  Credit Type: State  Counted in Rank GPA: No

EXTENDED PRACTICUM IN AGRICULTURE, FOOD, AND NATURAL RESOURCES

Extended Practicum in Agriculture, Food, and Natural Resources is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experiences such as employment, independent study, internships, assistantships, mentorships, or laboratories. The practicum course is a paid or unpaid capstone experience for students participating in a coherent sequence of career and technical education courses in the Agriculture, Food, and Natural Resources Career Cluster.

CT PRINCIPLES AGR FOOD NAT RES

Course Key: CTPAGN  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13000200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): None

PRINCIPLES OF AGRICULTURE, FOOD, AND NATURAL RESOURCES

Principles of Agriculture, Food, and Natural Resources will allow students to develop knowledge and skills regarding career and educational opportunities, personal development, globalization, industry standards, details, practices, and expectations. To prepare for careers in agriculture, food, and natural resources, students must attain academic skills and knowledge in agriculture. To prepare for success, students need opportunities to learn, reinforce, experience, apply, and transfer their knowledge and skills in a variety of settings.

CT SMALL ANIMAL MANAGEMENT

Course Key: CTSMANI  Length: SM  Course Type: Regular  Course Weight: Core
Service ID: 13000400  Credits: 0.50  Credit Type: State  Counted in Rank GPA: No

Recommended Corequisite(s): Equine Science

SMALL ANIMAL MANAGEMENT

In Small Animal Management, students will acquire knowledge and skills related to small animals and the small animal management industry. Small Animal Management may address topics related to small mammals such as dogs and cats, amphibians, reptiles, and birds. To prepare for careers in the field of animal science, students must enhance academic knowledge and skills, acquire knowledge and skills related to animal systems, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer knowledge and skills in a variety of settings.
### VETERINARY MEDICAL APPLICATIONS

Veterinary Medical Applications covers topics relating to veterinary practices, including practices for large and small animal species. To prepare for careers in the field of animal science, students must attain academic skills and knowledge, acquire technical knowledge and skills related to animal systems and the workplace, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer knowledge and skills and technologies in a variety of settings. Students in this course are working towards a Veterinary Assistant certification.

SEE ALSO: CTAAS: CT Advanced Animal Science listed under Science section

### CT WILDLIFE FISH & ECO MGT

To be prepared for careers in natural resource systems, students need to attain academic skills and knowledge, acquire technical knowledge and skills related to natural resources, and develop knowledge and skills regarding career opportunities, entry requirements, and industry expectations. To prepare for success, students need opportunities to learn, reinforce, apply, and transfer their knowledge and skills in a variety of settings. This course examines the management of game and non-game wildlife species, fish, and aqua crops and their ecological needs as related to current agricultural practices.
VII. Electives: Career and Technical Education: Arts, Audio/Video & Communications

CT AUDIO/VIDEO PRODUCTION 1

Course Key: CTAVP1  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13008500  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: No  
Prerequisite(s): None.

AUDIO/VIDEO PRODUCTION I

In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on pre-production, production, and post-production audio and video products.

CT AUDIO/VIDEO PRODUCTION 2

Course Key: CTAVP2  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13008600  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: No  
Prerequisite(s): Audio/Video Production I

AUDIO/VIDEO PRODUCTION II

Building upon the concepts taught in Audio/Video Production, in addition to developing advanced knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an advanced understanding of the industry with a focus on pre-production, production, and post-production products.

CT AV PRODUCTION/LAB 1

Course Key: CTAVP1L  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13008510  
Credits: 2.00  
Credit Type: State  
Counted in Rank GPA: No  
Prerequisite(s): None.

AUDIO/VIDEO PRODUCTION I/LAB

In addition to developing technical knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the industry with a focus on pre-production, production, and post-production audio and video products. Students who take the lab version of this course can have time devoted specifically to the production and post-production process.

CT AV PRODUCTION/LAB 2

Course Key: CTAVP2L  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13008610  
Credits: 2.00  
Credit Type: State  
Counted in Rank GPA: No  
Prerequisite(s): Audio/Video Production I

AUDIO/VIDEO PRODUCTION/LAB II

Building upon the concepts taught in Audio/Video Production, in addition to developing advanced knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an advanced understanding of the industry with a focus on pre-production, production, and post-production products.

Students who take this lab can have time devoted specifically to the production and post-production process.

CT COMMERCIAL PHOTOGRAPHY 1

Course Key: CTCPHO1  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13009100  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: No  
Prerequisite(s): None

COMMERCIAL PHOTOGRAPHY I
Careers in commercial photography require skills that span all aspects of the industry from setting up a shot to delivering products in a competitive market. In addition to developing knowledge and skills needed for success in the Arts, Audio/Video Technology, and Communications Career Cluster, students will be expected to develop an understanding of the commercial photography industry with a focus on creating quality photographs.

Prerequisite(s): None

PROFESSIONAL COMMUNICATION

Professional Communications blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research.
VII. Electives: Career and Technical Education: Business Management & Administration

Prerequisite(s): None

**PRINCIPLES OF BUSINESS, MARKETING, AND FINANCE**

In Principles of Business, Marketing, and Finance, students gain knowledge and skills in economies and private enterprise systems, the impact of global business, marketing of goods and services, advertising, and product pricing. Students analyze the sales process and financial management principles. This course allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems and settings in business, marketing, and finance.
VII. Electives: Career and Technical Education: Education & Training

CT CHILD DEVELOPMENT

Course Key: CTCD  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13024700  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: No

Child Development

This course addresses knowledge and skills related to child growth and development from prenatal through school-age children, equipping students with child development skills. Students use these skills to promote the well-being and healthy development of children and investigate careers related to the care and education of children. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

CT INSTRUCTIONAL PRACTICES

Course Key: CTEDT2  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13014400  
Credits: 2.00  
Credit Type: State  
Counted in Rank GPA: No

Instructional Practices

Instructional Practices is a field-based (practicum) internship that provides students with background knowledge of child and adolescent development as well as principles of effective teaching and training practices. Students work under the joint direction and supervision of both a teacher with knowledge of early childhood, middle childhood, and adolescence education and exemplary educators or trainers in direct instructional roles with elementary-, middle school-, and high school-aged students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, develop materials for educational environments, assist with record keeping, and complete other responsibilities of teachers, trainers, paraprofessionals, or other educational personnel. This course can be selected in a student's 4-year plan for the 2020-21 school year or later.

CT PRACTICUM IN ED TRAINING

Course Key: CTEDT3  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13014500  
Credits: 2.00  
Credit Type: State  
Counted in Rank GPA: No

Practicum in Education and Training

Practicum in Education and Training is a field-based internship that provides students background knowledge of child and adolescent development principles as well as principles of effective teaching and training practices. Students in the course work under the joint direction and supervision of both a teacher with knowledge of early childhood, middle childhood, and adolescence education and exemplary educators in direct instructional roles with elementary-, middle school-, and high school-aged students. Students learn to plan and direct individualized instruction and group activities, prepare instructional materials, assist with record keeping, make physical arrangements, and complete other responsibilities of classroom teachers, trainers, paraprofessionals, or other educational personnel. This course can be selected in a student's 4-year plan for the 2021-22 school year or later.

CT PRIN EDUCATION AND TRAINING

Course Key: CTEDT1  
Length: YR  
Course Type: Regular  
Course Weight: Core  
Service ID: 13014200  
Credits: 1.00  
Credit Type: State  
Counted in Rank GPA: No

Principles of Education and Training

Principles of Education and Training is designed to introduce learners to the various careers available within the Education and Training Career Cluster. Students use self-knowledge as well as educational and career information to analyze various careers within the Education and Training Career Cluster. Students will develop a graduation plan that leads to a specific career choice in the student's interest area.
## VII. Electives: Career and Technical Education: Finance

### CT ACCOUNTING 1

</table>

Recommended Prerequisite(s): Principles of Health Science

PRACTICUM IN HEALTH SCIENCE - CERTIFIED PATIENT CARE TECHNICIAN (CPCT)

The practicum is designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. A student may earn industry-recognized certification in this course. Fees are required for this course - see a Health Science teacher for details.
VII. Electives: Career and Technical Education: Health Science

PRACTICUM IN HEALTH SCIENCE - PHARMACY TECHNICIAN

The Practicum is designed to give students practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience. A student may earn industry-recognized certification in this course. Fees are required for this course - see a Health Science teacher for details.

CT PRACTICUM HEALTH SCI 2 PT

Course Key: CTPHS2PT  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13020510  Credits: 2.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Health Science Theory, and Biology
Recommended Prerequisite: Principles of Health Science

CT PRINCIPLES HEALTH SCIENCE

Course Key: CTPHS  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13020200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): None

PRINCIPLES OF HEALTH SCIENCE

The Principles of Health Science provides an overview of the therapeutic, diagnostic, health informatics, support services, and biotechnology research and development systems of the health care industry. This course satisfies the local health graduation requirement.
VII. Electives: Career and Technical Education: Hospitality & Tourism

CT ADV CULINARY ARTS

<table>
<thead>
<tr>
<th>Course Key: CTADCLA</th>
<th>Length: YR</th>
<th>Course Type: Articulated</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 13022650</td>

Prerequisite(s): Advanced Culinary Arts

PRACTICUM IN CULINARY ARTS

The course is a unique practicum that provides occupationally specific opportunities for students to participate in a learning experience that combines classroom instruction with actual business and industry career experiences. Practicum in Culinary Arts integrates academic and career and technical education; provides more interdisciplinary instruction; and supports strong partnerships among schools, businesses, and community institutions with the goal of preparing students with a variety of skills in a fast-changing workplace. Students are taught employability skills, which include job-specific skills applicable to their training plan, job interview techniques, communication skills, financial and budget activities, human relations, and portfolio development. Instruction may be delivered through school-based laboratory training or through work-based delivery arrangements such as cooperative education, mentoring and job shadowing. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

CT INTRO TO CULINARY ARTS

<table>
<thead>

<th>Counted in Rank GPA: No</th>
</tr>
</thead>
</table>

**COSMETOLOGY I**

In Cosmetology I, students coordinate integration of academic, career, and technical knowledge and skills in this laboratory instructional sequence course designed to provide job-specific training for employment in cosmetology careers. Instruction includes Texas Department of Licensing and Regulation (TDLR) requirements for licensure upon passing the state examination. Analysis of career opportunities, license requirements, knowledge and skills expectations, and development of workplace skills are included.

#### CT COSMETOLOGY 2

<table>
<thead>
<tr>
<th>Course Key: CTCOS2</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
<th>Service ID: 13025300</th>
<th>Credits: 2.00</th>
<th>Credit Type: State</th>
<th>Counted in Rank GPA: No</th>
</tr>
</thead>
</table>

**COSMETOLOGY II**

In Cosmetology II, students will demonstrate proficiency in academic, technical, and practical knowledge and skills. The content is designed to provide the occupational skills required for licensure. Instruction includes advanced training in professional standards/employability skills; Texas Department of Licensing and Regulation (TDLR) rules and regulations; use of tools, equipment, technologies, and materials; and practical skills.

#### CT COUNSELING MENTAL HEALTH

<table>
<thead>
<tr>
<th>Course Key: CTCMH</th>

<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 13024500</td>
<td>Credits: 0.50</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Recommended Prerequisite(s): None

**LIFETIME NUTRITION AND WELLNESS**

This laboratory course allows students to use principles of lifetime wellness and nutrition to help them make informed choices that promote wellness as well as pursue careers related to hospitality and tourism, education and training, human services, and health sciences. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

**CT MICROBIO SAFETY COSMETOLOGY**

<table>
<thead>
<tr>
<th>Course Key: CTCOSMB</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: N1302540</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): None

Corequisite: Introduction to Cosmetology

**MICROBIOLOGY AND SAFETY FOR COSMETOLOGY CAREERS**

Students who enroll in Microbiology and Safety for Cosmetology Careers will receive instruction in the microbial world, studying topics such as pathogenic and non-pathogenic microorganisms, identification of microorganisms, drug-resistant organisms, and emerging diseases. Additionally, students will explore and apply concepts as they apply to the safety and health of individuals pursuing a career in cosmetology services. This course also includes an opportunity for students to solve an in-depth analytical problem concerning occupational health and safety in cosmetology.

**CT PRACTICUM HUMAN SERVICES**

<table>
<thead>
<tr>

<tbody>
<tr>
<td>Service ID: 13024200</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): None

**PRINCIPLES OF HUMAN SERVICES**

This laboratory course will enable students to investigate careers in the human services career cluster, including counseling and mental health, early childhood development, family and community, and personal care services. Each student is expected to complete the knowledge and skills essential for success in high-skill, high-wage, or high-demand human services careers.
## VII. Electives: Career and Technical Education: Law, Public Safety, Corrections & Security

### CT COURT SYSTEMS AND PRACTICES

<table>
<thead>
<tr>
<th>Course Key: CTCSP</th>
<th>Length: YR</th>
<th>Course Type: Articulated</th>
<th>Course Weight: Core</th>
<th>Service ID: 13029600</th>
<th>Credits: 1.00</th>
<th>Credit Type: State</th>
<th>Counted in Rank GPA: No</th>
</tr>
</thead>
</table>

Recommended Prerequisite(s): Law Enforcement I

### COURT SYSTEMS AND PRACTICES

Court Systems and Practices is an overview of the federal and state court systems. The course identifies the roles of judicial officers and the trial processes from pretrial to sentencing and examines the types and rules of evidence. Emphasis is placed on constitutional laws for criminal procedures such as search and seizure, stop and frisk, and interrogation.

SEE ALSO: CTFS - CT Forensic Science listed under science section.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.

### CT LAW ENFORCEMENT 1

<table>
<thead>
<tr>
<th>Course Key: CTLE1</th>

</thead>
</table>

Prerequisite(s): Law Enforcement I

### LAW ENFORCEMENT II

Law Enforcement II provides the knowledge and skills necessary to prepare for a career in law enforcement. This course includes the ethical and legal responsibilities, operation of police and emergency telecommunication equipment, and courtroom testimony.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.

### CT PRACTICUM LAW PUB SAF CORR

<table>

</tr>
</thead>
</table>

The practicum course is designed to give students supervised practical application of previously studied knowledge and skills in law, public safety, corrections, and security. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience.
PRINCIPLES OF LAW, PUBLIC SAFETY, CORRECTIONS AND SECURITY

Principles of Law, Public Safety, Corrections, and Security introduces students to professions in law enforcement, security, corrections, and fire and emergency management services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, security, and corrections.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.
VII. Electives: Career and Technical Education: Science, Technology, Engineering & Math

COMPUTER SCIENCE 1

Course Key: CSCI1  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03580200  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite or corequisite: Algebra I

Computer Science I will foster students’ creativity and innovation with opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate to solve problems presented throughout the course. Through data analysis, students will identify task requirements and use computer science concepts to synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science using tools such as visual programming environments, robots, and the Java programming language.

See also AP Computer Science A Math, listed under the Mathematics section.

NOTE REGARDING COMPUTER SCIENCE & LOTE GRADUATION REQUIREMENTS:

The State Board of Education (SBOE) has approved specific computer sciences to substitute for LOTE credits. Georgetown ISD offers the following approved LOTE substitution courses: Computer Science Principles AP, Computer Science I, and Computer Science A AP. Students must complete two courses in Computer Science to satisfy the graduation requirement.

Please note that outside of Texas public universities, not all colleges and universities accept computer science for admission purposes as satisfying the LOTE requirement. Additionally, once admitted colleges and universities may have traditional LOTE graduation requirements. Students are encouraged to reach out to their prospective college(s) before enrollment in these courses for information about college admissions and graduation requirements.

Computer Science 1 and Computer Science Principles AP do not count toward a student’s GISD weighted GPA when used to satisfy the LOTE graduation requirement. For more information regarding the calculation of rank and GPA, see the Georgetown ISD student handbook and Board Policy EIC (Local).

COMPUTER SCIENCE PRINCIPLES AP

Course Key: CSCIPA  Length: YR  Course Type: Adv. Placement  Course Weight: Advanced
Service ID: A3580300  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

AP Computer Science Principles course is designed to be equivalent to a first-semester introductory college computing course. In this course, students will develop computational thinking skills vital for success across all disciplines, such as using computational tools to analyze and study data and working with large data sets to analyze, visualize, and draw conclusions from trends. The course engages students in the creative aspects of the field by allowing them to develop computational artifacts based on their interests. Students will also develop effective communication and collaboration skills by working individually and collaboratively to solve problems, and will discuss and write about the impacts these solutions could have on their community, society, and the world.

College Board Course Description:

See also AP Computer Science A Math listed under Mathematics courses. The AP Computer Science Principles course is complementary to AP Computer Science A. Students can take these courses in any order or at the same time, as schedules permit.

NOTE REGARDING COMPUTER SCIENCE & LOTE GRADUATION REQUIREMENTS:

The State Board of Education (SBOE) has approved specific computer sciences to substitute for LOTE credits. Georgetown ISD offers the following approved LOTE substitution courses: Computer Science Principles AP, Computer Science I, and Computer Science A AP. Students must complete two courses in Computer Science to satisfy the graduation requirement.

Please note that outside of Texas public universities, not all colleges and universities accept computer science for admission purposes as satisfying the LOTE requirement. Additionally, once admitted colleges and universities may have traditional LOTE graduation requirements. Students are encouraged to reach out to their prospective college(s) before enrollment in these courses for information about college admissions and graduation requirements.
courses for information about college admissions and graduation requirements.

Computer Science 1 and Computer Science Principles AP do not count toward a student's GISD weighted GPA when used to satisfy the LOTE graduation requirement. For more information regarding the calculation of rank and GPA, see the Georgetown ISD student handbook and Board Policy EIC (Local).

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

CT AEROSPACE DESIGN 1

Course Key: CTAD1  Length: SM  Course Type: Regular  Course Weight: Core
Service ID: Credits: 0.50  Credit Type: State  Counted in Rank GPA: No

GISD Recommended Prerequisite: Engineering Science

AEROSPACE DESIGN 1 is the first semester class to be taken as part of the drones program.

This course will offer a full year's worth of content and credit through double-blocked/two-period scheduling in a single semester. The semester grade earned in this course will be awarded for both semester 1 and semester 2 of the course on the student's high school transcript.

Semester 2 will be Aerospace Design 2 [CTAD2]

CT AEROSPACE DESIGN 2

Course Key: CTAD2  Length: SM  Course Type: Regular  Course Weight: Core
Service ID: Credits: 0.50  Credit Type: State  Counted in Rank GPA: No

Prerequisite: Engineering Science, Aerospace Design 1

AEROSPACE DESIGN 2 is the second semester class to be taken as part of the drones program.

This course will offer a full year's worth of content and credit through double-blocked/two-period scheduling in a single semester. The semester grade earned in this course will be awarded for both semester 1 and semester 2 of the course on the student's high school transcript.

CT CIVIL ENG ARCHITECTURE PLTW

Course Key: CTCEA  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: N1303747  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Recommended Prerequisite(s): Completion/concurrent enrollment in appropriate college preparatory mathematics and science courses

Corequisite: Construction Engineering and Management

CIVIL ENGINEERING & ARCHITECTURE - PROJECT LEAD THE WAY

Civil Engineering and Architecture (CEA) is a high school level specialization course in the PLTW Engineering Program. In CEA students are introduced to important aspects of building and site design and development. They apply math, science, and standard engineering practices to design both residential and commercial projects and document their work using 3D architectural design software. Utilizing the activity-project-problem-based (APB) teaching and learning pedagogy, students progress from completing structured activities to solving open-ended projects and problems that require them to develop planning, documentation, communication, and other professional skills.

Through both individual and collaborative team activities, projects, and problems, students problem solve as they practice common design and development protocols such as project management and peer review. Students develop skill in engineering calculations, technical representation, documentation of design solutions according to accepted technical standards, and use of current 3D architectural design and modeling software to represent and communicate solutions.

Prerequisite(s): Algebra I and Geometry

*This course is paired with Scientific Research and Design and is offered at the FRC.*

DIGITAL ELECTRONICS - PROJECT LEAD THE WAY

Digital electronics is the foundation of all modern electronic devices such as mobile phones, MP3 players, laptop computers, digital cameras and high-definition televisions. Students are introduced to the process of combinational and sequential logic design, engineering standards and technical documentation. Possible college credit available based PLTW EOC exam score.

Course Note: This course satisfies a high school mathematics graduation requirement.

Prerequisite: Algebra I and at least 1 credit from a course in the STEM career cluster.

ENGINEERING DESIGN AND PRESENTATION 1

Engineering Design and Presentation I is a continuation of knowledge and skills learned in Principles of Applied Engineering. Students enrolled in this course will demonstrate knowledge and skills of the design process as it applies to engineering fields using multiple software applications and tools necessary to produce and present working drawings, solid model renderings, and prototypes. Students will use a variety of computer hardware and software applications to complete assignments and projects. Through implementation of the design process, students will transfer advanced academic skills to component designs. Additionally, students explore career opportunities in engineering, technology, and drafting and what is required to gain and maintain employment in these areas.

ENGINEERING DESIGN AND PRESENTATION II ADVANCED

Prerequisites: Principles of Applied Engineering or Engineering Design and Presentation I, Algebra I, and Geometry.

Engineering Design and Presentation II is a continuation of knowledge and skills learned in Engineering Design and Presentation I. Students enrolled in this course will demonstrate advanced knowledge and skills of a system design process as it applies to engineering fields and project management using multiple software applications and tools necessary to produce and present working drawings, solid model renderings, and prototypes. Students will expand on the use of a variety of computer hardware and software applications to complete assignments and projects. Through implementation of a system design process, students will transfer advanced academic skills to component designs and engineering systems. Emphasis will be placed on transdisciplinary and integrative approaches using skills from ideation, prototyping, and project management methods.

Advanced Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.
CT INTRO AIRCRAFT TECHNOLOGY

Course Key: CTAEAT  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13039350  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Required Corequisite(s): CT Aircraft Maintenance

Introduction to Aircraft Technology is designed to teach the theory of operation of aircraft airframes, powerplants, and associated maintenance and repair practices. Maintenance and repair practices include knowledge of the function, diagnosis, and service of general curriculum subjects, airframe structures, airframe systems and components, powerplant theory and maintenance, and powerplant systems and components of aircraft. Industry recognized professional licensures, certifications, and registrations are available for students who meet the requirements set forth by the accrediting organization. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

CT INTRO TO ENG DESIGN PLTW

Course Key: CTIED  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: N1303742  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

INTRODUCTION TO ENGINEERING DESIGN - PROJECT LEAD THE WAY

The major focus of IED is the design process and its application. Through hands-on projects, students apply engineering standards and document their work. Students use industry standard 3-D modeling software to help them design solutions to solve proposed problems, document their work using an engineer's notebook, and communicate solutions to peers and members of the professional community. Possible college credit available based PLTW EOC exam score.

SEE ALSO CTPE - CT Engineering Science listed under science section.

CT PRACTICUM STEM

Course Key: CTPSTE  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 13037400  Credits: 2.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Algebra I and Geometry
Recommended Prerequisite(s): two Science, Technology, Engineering, and Mathematics (STEM) Career Cluster credits

PRACTICUM IN SCIENCE, TECHNOLOGY, ENGINEERING, AND MATHEMATICS

Practicum in STEM is designed to give students supervised practical application of previously studied knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience.

GAME PROGRAMMING/DESIGN

Course Key: GAME  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03580380  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Algebra I

Game Programming and Design teaches students the skills needed to create a computer game. Students continue to develop the skills they acquired in Computer Science I to plan, design, program, and evaluate computer games. Students will collaborate with one another, their instructor, and various electronic communities to solve gaming problems. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will present their games to an evaluation panel.

TECHAPPS INDEPENDENT STUDY 1

Course Key: TAIS1  Length: YR  Course Type: Regular  Course Weight: Core
Service ID: 03580900  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Minimum of 2 high school information technology courses

Students gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical skills and application
of information technology concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, information technology experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid internship, or as career preparation.
VII. Electives: Career and Technical Education: Transportation, Distribution & Logistics

CT AIRCRAFT AVIONICS TECH/LAB

Course Key: CTAATL  |  Length: YR  |  Course Type: Regular  |  Course Weight: Core  
Service ID:  |  Credits: 2.00  |  Credit Type: State  |  Counted in Rank GPA: No  

AIRCRAFT AVIONICS TECHNOLOGY/LAB

This is year 2 of the Aviation program. This two credit course will be taught exclusively at the FRC starting in the 2025-2026 school year. No students will be enrolled in this course for 24-25.

CT AIRCRAFT MAINTENANCE

Course Key: CTAM  |  Length: YR  |  Course Type: Regular  |  Course Weight: Core  
Service ID:  |  Credits: 1.00  |  Credit Type: State  |  Counted in Rank GPA: No  

Required Corequisite(s): CT Intro to Aircraft Technology

CT AIRCRAFT POWERPLANT TECH

Course Key: CTAPT  |  Length: YR  |  Course Type: Regular  |  Course Weight: Core  
Service ID: 13039500  |  Credits: 2.00  |  Credit Type: State  |  Counted in Rank GPA: No  

Prerequisite: Introduction to Aircraft Technology

Aircraft Powerplant Technology is designed to teach the theory of operation of aircraft powerplants and associated maintenance and repair practices of the Federal Aviation Administration (FAA) powerplant curriculum subjects utilizing aircraft, aircraft training devices, or equivalent simulated situations. In this course, the academic and technical skills are separated to reflect the learning outcomes as designed in the FAA airman certification standards. Powerplant maintenance and repair practices include knowledge of the theory, function, diagnosis, and service of powerplants, systems, and components of aircraft. Industry-recognized professional licensures, certifications, and registration are available for students who meet the requirements set forth by the accrediting organization.

This course should be taken in year 3 of the Aviation program. This two credit course will be taught exclusively at the FRC starting in the 2026-2027 school year. No students will be enrolled in this course for 24-25.

CT AUTOMOTIVE BASICS

Course Key: CTAUTOB  |  Length: YR  |  Course Type: Articulated  |  Course Weight: Core  
Service ID: 13039550  |  Credits: 1.00  |  Credit Type: State  |  Counted in Rank GPA: No  

Prerequisite(s): None

AUTOMOTIVE BASICS

Automotive Basics includes knowledge of the basic automotive systems and the theory and principles of the components that make up each system and how to service these systems. Automotive Basics includes applicable safety and environmental rules and regulations. In Automotive Basics, students will gain knowledge and skills in the repair, maintenance, and servicing of vehicle systems. This study allows students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.
VII. Electives: Career and Technical Education: Transportation, Distribution & Logistics

**AUTOMOTIVE TECHNOLOGY I: MAINTENANCE AND LIGHT REPAIR**

Automotive Technology I: Maintenance and Light Repair includes knowledge of the major automotive systems and the principles of diagnosing and servicing these systems. This course includes applicable safety and environmental rules and regulations. In Automotive Technology I: Maintenance and Light Repair, students will gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.

**AUTOMOTIVE TECHNOLOGY II: AUTOMOTIVE SERVICE**

Automotive Technology II: Automotive Service includes knowledge of the major automotive systems and the principles of diagnosing and servicing these systems. Automotive Technology II: Automotive Service includes applicable safety and environmental rules and regulations. In this course, students will gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability. Students are encouraged to participate in extended learning experiences such as career and technical student organizations and other leadership or extracurricular organizations.

Articulated Course: This course can offer potential college credit through the Austin Community College articulation agreement.

**PRACTICUM IN TRANSPORTATION SYSTEMS**

Practicum in Transportation Systems is designed to give students supervised practical application of knowledge and skills. Practicum experiences can occur in a variety of locations appropriate to the nature and level of experience such as internships, mentorships, independent study, or laboratories. The Practicum can be either school lab based or worked based.
### VII. Electives: Fine Arts

#### AP 2D ART AND DESIGN

<table>

</tr>
</tbody>
</table>

Recommended Prerequisite(s): 1 Art, Level 2 course and teacher recommendation

This class is designed for the advanced visual art student to compile a quality portfolio of original 2-D artworks. Students will meet the requirements of the College Board Advanced Placement Program in an independent study environment, including summer project development prior to the fall semester. Students will work collaboratively with faculty to select appropriate media and will demonstrate mastery of various 2-D design techniques including, but not limited to: graphic design, digital imaging, photography, collage, fabric design, weaving, fashion design, fashion illustration, painting and printmaking. Students are expected to provide basic supplies for this course and pay all fees associated with obtaining design materials. Student is responsible for photographing the submitted artworks. There will likely be extensive supply costs for this course. NOTE: This course was previously titled Art Studio 2D AP.

For more information, see https://apcentral.collegeboard.org/pdf/ap-art-and-design-course-and-exam-description.pdf?course=ap-2-d-art-and-design

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Recommended Prerequisite(s): 1 Art, Level 2 course and teacher recommendation

This class is designed for the advanced visual art student to compile a quality portfolio of original 3-D sculptures and/or ceramic artworks. Students will meet the requirements of the College Board Advanced Placement Program in an independent study environment, including summer project development prior to the fall semester. Students will work collaboratively with faculty to select appropriate media and will demonstrate mastery of various 3-D design techniques. Students are expected to provide basic supplies for this course and pay all fees associated with obtaining design materials. Student is responsible for photographing the submitted artworks. There will likely be extensive supply costs for this course. NOTE: This course was previously named ARTS3A, Art Studio 3D AP.

For more information, see https://apcentral.collegeboard.org/pdf/ap-art-and-design-course-and-exam-description-0.pdf?course=ap-3-d-art-and-design

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.
## AP Music Theory

<table>
<thead>
<tr>
<th>Course Key: MUSTHA</th>
<th>Length: YR</th>
<th>Course Type: Adv. Placement</th>
<th>Course Weight: Advanced</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: A3150200</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Recommended Prerequisite(s): Music Theory or teacher approval

AP Music Theory should be considered a college level music theory course. This course includes advanced study in the musical areas of counterpoint, harmony, chords, scales, musical forms and part-writing. Advanced harmony and part-writing will be covered as well as advanced ear training. Students are expected to take the AP Music Theory Exam near the end of this course. Thus, the primary focus for the course is preparing for the exam.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

## Art 1

<table>
<thead>
<tr>
<th>Course Key: ART1</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03500100</td>

<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): None

Art 1 is a beginning art class covering perception, creative expression, art history, and aesthetic judgment. Student-created artwork will demonstrate, compare, and contrast the Elements of Art. Students will demonstrate proper use of various art media, compare and contrast different art styles and trends throughout history and apply aesthetic judgment in evaluating artwork. Students may need to provide some supplies.

## Ceramics II

<table>
<thead>
<tr>
<th>Course Key: ART2C</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03500900</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art I

Ceramics II is a second year studio class designed to enhance the Art I components of form and texture. Students will be encouraged to discover their own three-dimensional artistic voice in this exciting art form. Students will use a wide range of hand-building and wheel throwing techniques with earthen clay while gaining insight into the history of various world cultures through the study of this ancient art form. Functional, sculptural and decorative artwork will be produced. Students will be expected to keep and use a sketchbook for documenting, problem solving and critiquing art works and techniques. There may be an art lab fee of up to $30 for this course.

## Art 2 Digital Art & Media

<table>
<thead>
<tr>
<th>Course Key: ART2DM</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03501220</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art I

This lab course is the introduction of technology using an artistic focus. Students will learn to use Adobe Creative Cloud programs and 3D modeling/animation programs such as Blender with traditional design techniques. Students will view the computer as an important tool for the artist and use computer programs to facilitate the design process of exploring, developing ideas, and producing finished work. Students will have the opportunity to transfer original artwork through various electronic and digital scanning methods. Students will learn the basics of hardware and a variety of art software programs. The student will build a visual electronic portfolio throughout the course. Careers in the field of electronic media are introduced to the students. Students will have access to a digital camera at school.

## Art 2 Drawing

<table>
<thead>
<tr>
<th>Course Key: ART2D</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03500500</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art I

Drawing II is a second year art class focusing on creative expression while exploring different drawing media and techniques. Continued use of the Elements of Art and the Principles of design will make students more aware of individual strengths and
interests. Students will be introduced to art criticism and analysis. Students may need to provide some supplies. Additionally, there may be an art lab fee of up to $30 for this course.

**ART 2 PAINTING**

<table>
<thead>
<tr>
<th>Course Key: ART2P</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03500600</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art I

Painting II is a second year art class focusing on creative expression while exploring different painting media and techniques, illustrating color theory, and color schemes. Also included are more advanced work with perception, creative expression, art history, and aesthetic judgment of various painted artworks. Art criticism and analysis will also take place through the study of leading painters and their artworks. Students may need to provide some supplies. Additionally, there may be an art lab fee of up to $30 for this course.

**ART 2 PHOTOGRAPHY**

<table>
<thead>
<tr>
<th>Course Key: ART2PH</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>
</tr>
</thead>
<tbody>
<tr>
<td>Service ID: 03501200</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art I

This is a second year course for students who wish to demonstrate the Elements of Art and Principles of Design through the lens of a camera. Students will study the work of photographers and videographers in the world of art dating back to the beginning of the processes. Students will analyze work and apply newly developed concepts to works that are individually produced. This course is designed to give students the photographic fundamentals needed to begin an area of concentration in the visual arts. Students may be expected to provide some supplies or equipment. There may be an art lab fee of up to $30 for this course.

**ART 2 SCULPTURE**

<table>
<thead>
<tr>
<th>Course Key: ART2S</th>

<tbody>
<tr>
<td>Service ID: 03501000</td>
<td>Credits: 1.00</td>
<td>Credit Type: State</td>
<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art I

This class is designed for the second year visual art student who wants to focus in the 3D aspects of Visual Arts. Students will study various 3D artworks from past to present, plus sketch, design, and build their own sculptures. Students will use conventional and unconventional materials, methods, and tools to create artworks. Students are expected to help provide some supplies, tools, and an art lab fee of up to $30.

**ART 3 CERAMICS**

<table>
<thead>
<tr>
<th>Course Key: ART3C</th>
<th>Length: YR</th>
<th>Course Type: Regular</th>
<th>Course Weight: Core</th>

<td>Counted in Rank GPA: No</td>
</tr>
</tbody>
</table>

Prerequisite(s): Art II Ceramics

Ceramics III is a more advanced continuation of Ceramics II and is designed for the serious art student. The course continues the upward spiral of the visual art curriculum. Students will experience various earthen clay, glazes, stains and mixed media techniques while using a higher level of problem solving skills. Students will become more involved in the production of glazes, operating the kiln and producing more thought provoking art works. The course will assist students with the beginning construction of a portfolio for AP Art courses or university-level studies. Students will be expected to keep and use a sketchbook for documenting, problem solving and critiquing art works and techniques. There may be an art lab fee of up to $30 for this course.

VII. Electives: Fine Arts

**ART 3 DRAWING**

Course Key: ART3D | Length: YR | Course Type: Regular | Course Weight: Core
Service ID: 03501300 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No

Prerequisite(s): Art II Drawing

Drawing III is a more advanced continuation of Drawing II and is designed for the serious art student. The course continues the upward spiral of the visual art curriculum. Students will problem-solve while experiencing new drawing media techniques. The course will assist students with the beginning construction of a portfolio for AP Art courses or university-level studies. Students may need to provide some supplies. Additionally, there may be an art lab fee of up to $30 for this course.

**ART 3 PAINTING**

Course Key: ART3P | Length: YR | Course Type: Regular | Course Weight: Core
Service ID: 03501400 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No

Prerequisite(s): Art II Painting

Painting III is a more advanced continuation of Painting II and is designed for the serious art student wishing to pursue a career in the visual arts through design while preparing a strong portfolio. The course continues the upward spiral of the visual art curriculum. Art criticism and analysis will also take place through the study of leading painters and their artworks. The course will assist students with the beginning construction of a portfolio for AP Art courses or university-level studies. Students will be expected to keep and use a sketchbook and may need to provide additional supplies. There may be an art lab fee of up to $30 for this course.

**ART 3 PHOTOGRAPHY**

Course Key: ART3PH | Length: YR | Course Type: Regular | Course Weight: Core
Service ID: 03502200 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No

Prerequisite(s): Art II Photography

Art III Photography is a more advanced, continuation of Art II Photography and is designed for the serious art student wishing to pursue a career in the visual arts through design while preparing a strong portfolio. Students will explore photography and video from an alternative viewpoint. Students will work with sculpture and installation projects incorporating photography and video that is student produced. Students will explore many conceptual ideas while solving visual problems through the use of various mediums. Students will learn to work as a group building large scale works along with smaller independent projects creating a cohesive group installation. The course will assist students with the beginning construction of a portfolio for AP Art courses or university-level studies. Students may be expected to provide some supplies or equipment. There may be an art lab fee of up to $30 for this course.

**ART 3 SCULPTURE**

Course Key: ART3S | Length: YR | Course Type: Regular | Course Weight: Core
Service ID: 03501900 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No

Prerequisite(s): Art II Sculpture

Art III Sculpture is a more highly advanced, continuation of Art II Sculpture and is designed for the serious art student wishing to pursue a career in the visual arts through design while preparing a strong portfolio. This class is designed for the visual art student who wants to continue to focus in the 3-D aspects of the Visual Arts. Students will study various 3-D artworks from past to present, plus sketch, design, and build their own sculptures. Students will use conventional and unconventional materials, methods, and tools to create artworks. The course will assist students with the beginning construction of a portfolio for AP Art courses or university-level studies. Students are expected to have prior knowledge of various 3-D techniques. Students are expected to help provide some supplies, tools, and an art fee of up to $30.

**ART 4 CERAMICS**

Course Key: ART4C | Length: YR | Course Type: Regular | Course Weight: Core
Service ID: 03502700 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No

Prerequisite(s): Art III Ceramics

Ceramics IV is a more highly advanced, continuation of Ceramics III and is designed for the serious art student. The course continues the upward spiral of the visual art curriculum. Students will experience various earthen clay, glazes, stains and mixed media techniques while using a higher level of problem solving skills. Students will become more involved in the
production of glazes, operating the kiln and producing more thought provoking art works. Students will be expected to keep and use a sketchbook for documenting, problem solving and critiquing art works and techniques. The course will assist students with the continued construction of a portfolio for AP Art courses or university-level studies. There may be an art lab fee of up to $30 for this course.

Prerequisite(s): None

The AP Art History course is equivalent to a two-semester college survey course exploring the nature of art, art making, and responses to art. By investigating specific course content of 250 works of art characterized by diverse artistic traditions from prehistory to the present, students develop in-depth, holistic understanding of the history of art from a global perspective. Students become active participants in the global art world, engaging with its forms and content. They experience, research, discuss, read, and write about art, artists, art making, responses to, and interpretations of art.

Advanced Placement Course: Carefully review the Advanced Course Commitment guidelines before selecting this course.

Prerequisite(s): Enrollment in a band class the previous year or instructor approval

Corequisite(s): PE Substitution Marching Band

This full year course continues the development of performance techniques, music reading skills, listening skills, music theory knowledge and music history exposure developed in previous band classes. Students enrolled in Band 1 will develop self-discipline, problem-solving skills, leadership skills, time-management skills and continually work with peers as part of a musical performance team. Students will be placed into a particular band class or section based upon ability demonstrated by audition. All students enrolled in Band 1 - regardless of the particular band class - are required to participate in marching band during the first semester. Students will be expected to provide supplies and there are certain fees connected to the course.

Beginning in the 2020-2021 school year, students enrolled in Band 1 will be co-enrolled in PESUBMB (PE Substitution Marching Band) and will receive 1 credit of PE in addition to the fine arts credit.

**BAND 1 INSTRUMENTAL ENSEMBLE**

Prerequisite(s): None
Corequisite(s): PE Substitution Dance

Dance 1 is a course designed to introduce the student to the fundamentals of dance. This class will include basic dance technique and history in genres such as ballet, modern, jazz, social, folk and choreography. Fall and/or spring after school rehearsals and recital participation is required. Course expectations include specific skills acquired in "Foundations of Personal Fitness". Students are required to provide some supplies and pay a materials fee of up to $30.

Beginning in the 2020-2021 school year, students enrolled in Dance 1 Color Guard will be co-enrolled in PESUBD (PE Substitution Dance) and will also receive 1 credit of PE.

</tbody>
</table>

Recommended prerequisite: Courses in two of the following disciplines: theatre, dance, or music or by audition.

Musical Theatre will expose students to a wide range of on-stage performance disciplines, including acting performance, vocal performance, and dance performance. The course will also provide an atmosphere in which students benefit from a teaching and learning experience in these performance disciplines of musical theatre. Students will receive comprehensive and rigorous instruction so that they may make informed choices about the craft, college, and the profession. The course will enhance and cultivate the creative gifts of each student while encouraging a sense of self-confidence. The course will enable students to study and perform the varied styles of musical theatre with special attention to the principles of stage movement, stage vocal technique, stage choreography, acting, characterization, and other aspects of a musical production.

Prerequisite(s): Theatre 1 (previous or concurrent) or teacher recommendation

This is a full year course in which students are introduced to the practice and design of theatrical sets, scenery, lighting, sound, costumes, properties and makeup. Students will gain training in stage management and stage crew work. All students are required to fulfill minimum work hours outside of the school day and write a review of a live theatrical performance seen during each grading cycle. Additionally, students may work as crew members for the annual musical and the UIL One-Act Play Festival. Students will be expected to paint, move heavy/dirty equipment, work with power tools, and work with hot electrical equipment. Students must exhibit a healthy respect for the safety of themselves and those near them.

### ADV. BROADCAST JOURNALISM 1
- **Course Key:** BJRN1
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Core
- **Service ID:** 03231900
- **Credits:** 1.00
- **Credit Type:** State
- **Counted in Rank GPA:** No

**Prerequisite(s):** Journalism, Photojournalism, Advanced Technical Theater or Advanced Computer Course

Students will learn the basics of video production including story types, writing in broadcast style, digital video camera techniques, basic shooting of video and basic editing. A basic understanding of audio techniques, set lighting, electronic editing, script writing, direction and special effects will be acquired. On and off camera techniques will be explored. Individual projects such as music videos, documentaries and special school and district projects will be produced.

### ADV. BROADCAST JOURNALISM 2
- **Course Key:** BJRN2
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Core
- **Service ID:** 03231901
- **Credits:** 1.00
- **Credit Type:** State
- **Counted in Rank GPA:** No

**Prerequisite(s):** Broadcast Journalism/Video Production I

Students will learn the advanced methods of video production including story types, writing in broadcast style, digital video camera techniques, basic shooting of video and basic editing. A use of audio techniques, set lighting, electronic editing, script writing, direction and special effects will be acquired. On and off camera techniques will be explored. Individual projects such as music videos, documentaries and special school and district projects will be produced. Each second year student will be responsible for creating, writing, producing and editing a five minute video production.

### ADV. BROADCAST JOURNALISM 3
- **Course Key:** BJRN3
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Core
- **Service ID:** 03231902
- **Credits:** 1.00
- **Credit Type:** State
- **Counted in Rank GPA:** No

**Prerequisite(s):** Broadcast Journalism/Video Production I and II

Students will learn the advanced methods of video production including story types, writing in broadcast style, digital video camera techniques, basic shooting of video and basic editing. A use of audio techniques, set lighting, electronic editing, script writing, direction and special effects will be acquired. On and off camera techniques will be explored. Individual projects such as music videos, documentaries and special school and district projects will be produced. Each second and third year student will be responsible for creating, writing, producing and editing a five minute video production.

### ADV. JOURNALISM: NEWSPAPER 1
- **Course Key:** NEWS1
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Core
- **Service ID:** 03230140
- **Credits:** 1.00
- **Credit Type:** State
- **Counted in Rank GPA:** No

**Prerequisite(s):** Journalism or Photojournalism I

This is the class that produces the school newspaper. Students apply techniques of layout by designing pages and by writing copy, cut lines, and headlines, as well as by cropping pictures using desktop publishing software. They also sell advertisements to local merchants, gaining knowledge of the business community. Students will be required to cover events and work outside of regular school hours.

### ADV. JOURNALISM: NEWSPAPER 2
- **Course Key:** NEWS2
- **Length:** YR
- **Course Type:** Regular
- **Course Weight:** Core
- **Service ID:** 03230150
- **Credits:** 1.00
- **Credit Type:** State
- **Counted in Rank GPA:** No

**Prerequisite(s):** Advanced Journalism and Newspaper I

Students write stories and plan, edit, and makeup/layout the school newspaper. These students are editors of the school newspaper.

**Prerequisite(s):** Teacher recommendation

Developing advanced research and critical thinking skills while increasing the student's ability to persuade are the goals of this course. Students analyze contemporary issues and controversial issues as a means to find solutions and examine truths. The definition of debate is "organized argument," and this course is excellent preparation for college and professional careers. Preparation and presentation of debates are required in class and at speech tournaments. Students must attend at least one after school practice per week.

Local Credit Course: Does not count toward state graduation requirements.
IND. STUDY IN JOURNALISM

Course Key: PJRNI S
Service ID: 03231000
Length: YR
Credits: 1.00
Course Type: Regular
Course Weight: Core
Counted in Rank GPA: No

Prerequisite(s): Photojournalism

Students will continue to take photographs and apply what they learned in Photojournalism I. Students enrolled in this class will take photographs of school events including but not limited to sports, school events, and new events that concern the school and its students. Students will take photos for school related publications. Students will be required to attend events scheduled outside of the normal classroom day. Note: Digital camera is required for this course.

JOURNALISM

Course Key: JOURN
Service ID: 03230100
Length: YR
Credits: 1.00
Course Type: Regular
Course Weight: Core
Counted in Rank GPA: No

Prerequisite(s): None

Journalism students learn to write for a variety of audiences using different styles of journalistic writing. Students will become analytical consumers of media and technology to enhance their communication skills. Students will learn about the history of U. S. media, press law, and media ethics and responsibility. An emphasis will be placed on journalistic writing. Students should have access to a digital camera throughout the year. Students will be required to cover some after school events for the yearbook.

PHOTOJOURNALISM

Course Key: PJRN1
Service ID: 03230800
Length: YR
Credits: 1.00
Course Type: Regular
Course Weight: Core
Counted in Rank GPA: No

Prerequisite(s): None

Students take photographs, develop negatives, and print photos in a darkroom setting. Students also learn to take photos and download from digital cameras and manipulate them on a computer. This class also has a journalism component for nine weeks during which students learn to write news stories, feature articles, captions and headlines. Students produce photos and articles appropriate for use in the school newspaper and yearbook. Note: Students must have access to a 35mm and a digital camera. There may be a lab fee associated with this course.

SPEECH COMMUNICATION DC 1311

Course Key: COMD
Service ID: 03241400
Length: SM
Credits: 0.50
Course Type: Dual Credit
Course Weight: Advanced
Counted in Rank GPA: No

Prerequisite(s): ACC students must attain a qualifying TSI score and course availability is determined in collaboration with the community college.

Dual credit course offered through Austin Community College and taught at the high school campus during school hours. Students earn both high school and college credit upon completion for the following ACC course(s):

SPCH 1311 - INTRODUCTION TO SPEECH COMMUNICATIONS

Introduction to Speech Communication explores the theories and practice of speech communication behavior to promote communication competence in interpersonal, small group, and public speaking situations. The course also examines the influence of communication technologies on human interaction.

Dual Credit: This course offers both high school and college credit. ACC students must attain qualifying TSI score and course availability is determined in collaboration with the community college. OnRamps courses are offered in collaboration with The University Of Texas at Austin.

YEARBOOK 1

Course Key: YRBK1
Service ID: 03230110
Length: YR
Credits: 1.00
Course Type: Regular
Course Weight: Core
Counted in Rank GPA: No

Prerequisite(s): Journalism I or Photojournalism I

Students apply techniques of graphic design by designing pages and by writing copy, cut lines and head-lines, as well as by
cropping pictures using desktop publishing software. They also sell advertisements to local merchants, gaining knowledge of the business community. Students will be required to cover events and work outside of regular school hours. Note: Summer hours may be necessary.

**YEARBOOK 2**

| Course Key: YRBK2 | Length: YR | Course Type: Regular | Course Weight: Core | Service ID: 03230120 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No |

See Yearbook I

**YEARBOOK 3**

| Course Key: YRBK3 | Length: YR | Course Type: Regular | Course Weight: Core | Service ID: 03230130 | Credits: 1.00 | Credit Type: State | Counted in Rank GPA: No |

Prerequisite(s): Advanced Journalism: Yearbook I and II

These are the editors and the most experienced staff members of the school yearbook. They will plan, write, edit, and take photographs for the campus yearbook. Students enrolled in this class have been a part of the staff for two years and are responsible for setting deadlines and assuring that the publication adheres to journalistic style and standards.
VII. Electives: Other Electives

ADV VIA IND DETERMINATION I

Course Key: AVID1
Length: YR
Course Type: Innovative
Course Weight: Core

Service ID: N1290001
Credits: 1.00
Credit Type: State
Counted in Rank GPA: No

Prerequisite: Students must apply and be accepted to the course
Co-Requisite: Students must be enrolled in at least one Advanced, Advanced Placement (AP), Dual Credit, and/or On-Ramps course

ADVANCEMENT VIA INDIVIDUAL DETERMINATION (AVID), LEVEL I

Advancement Via Individual Determination (AVID) is a series of courses that prepare students for college readiness and success. Students receive instruction using a rigorous college preparatory curriculum provided by AVID Center, tutor-facilitated study groups, motivational activities and academic success skills. In AVID, students participate in activities that incorporate strategies focused on writing, inquiry, collaboration, organization, and reading to support their academic growth. Additionally, students engage in activities around college and career opportunities and explore their own student agency, giving students voice and often choice in how they learn.

AVID I serves as a review of the AVID philosophy and strategies. Students work on academic and personal goals, communication, and adjusting to the high school setting. Students increase their awareness of their personal contributions to their learning, as well as their involvement in their school and community. There is an emphasis on analytical writing, focusing on personal goals and thesis writing. Students work in collaborative settings, learning how to participate in collegial discussions and use sources to support their ideas and opinions. Students prepare for and participate in college entrance and placement exams while refining study skills and test-taking, note-taking, and research techniques. Students take an active role in field trips and guest-speaker preparations and presentations. College research includes financial topics and building their knowledge of colleges and careers of interest.

ADV VIA IND DETERMINATION II

Course Key: AVID2
Length: YR
Course Type: Innovative
Course Weight: Core

Service ID: N1290002
Credits: 1.00
Credit Type: State
Counted in Rank GPA: No

Prerequisite: If students were not previously in AVID, students must apply and be accepted to the course
Co-Requisite: Students must be enrolled in at least one Advanced, Advanced Placement (AP), Dual Credit, and/or On-Ramps course

ADVANCEMENT VIA INDIVIDUAL DETERMINATION (AVID), LEVEL II

AVID II students refine the AVID strategies to meet their independent needs and learning styles. Students continue to refine and adjust their academic learning plans and goals, increasing awareness of their actions and behaviors. As students increase the rigorous course load and school and community involvement, they refine their time management and study skills accordingly. Students expand their writing portfolio to include analyzing prompts, supporting arguments and claims, character analysis, and detailed reflections. Students also analyze various documents in order to participate in collaborative discussions and develop leadership skills in those settings. Students expand their vocabulary use, continuing to prepare for college entrance exams and preparation. Text analysis focuses on specific strategies to understand complex texts. Lastly, students narrow down their college and careers of interest based on personal interests and goals.

ADV VIA IND DETERMINATION III

Course Key: AVID3
Length: YR
Course Type: Innovative
Course Weight: Core

Service ID: N1290030
Credits: 1.00
Credit Type: State
Counted in Rank GPA: No

Prerequisite: If students were not previously in AVID, students must apply and be accepted to the course
Co-Requisite: Students must be enrolled in at least one Advanced, Advanced Placement (AP), Dual Credit, and/or On-Ramps course

ADVANCEMENT VIA INDIVIDUAL DETERMINATION (AVID), LEVEL III

AVID III focuses on writing and critical thinking skills expected of first- and second-year college students. In addition to the academic focus of AVID III, there are college-bound activities, methodologies, and tasks that should be undertaken during the third year to support students as they apply to four-year universities and confirm their postsecondary plans.

Prerequisite(s): NJROTC I, II, and III. Leadership: successful completion of Basic Leadership Training, Leadership Academy or satisfactory performance in a NJROTC leadership position or as a member of a NJROTC team.

This course is focused solely on practical leadership. The intent is to assist the senior in understanding leadership and improving their leadership skills by putting them in positions of leadership, under supervision, then helping them analyze the reasons for their varying degrees of success through the year. Classroom activities include seminars, reading assignments, classroom presentations, and practical work with younger cadets. NJROTC IV students serve as Platoon Advisors or Platoon Aides. An NJROTC IV's foremost responsibility is to serve as a model for other cadets in everything that he or she does.

Recommended prerequisite(s): Path-College/Career I, Path-College/Career II, and Path-College/Career III.

See Path College Career 1.
The Peer Buddy Program is designed to allow selected students to serve as tutors and advocates for students with disabilities. Peer Buddies will receive training on how to instruct peers with special challenges in various activities. Tutors will be required to keep a daily log, which summarizes their daily work with students. Tutors will be required to complete readings and short reports designed to increase awareness of the nature and problems associated with various disabling conditions. As advocates, tutors will be expected to set the example for others that people with disabilities need the same consideration and respect as their non-disabled peers. Periodic meetings, before and/or after school, will be necessary to facilitate the success of the Peer Buddy program. A commitment from all parties will provide a productive and enriching experience for all involved. The experience and growth will be valuable for a lifetime.

See Peer Assistance for Students with Disabilities 1

Peer Assistance and Leadership is a course in which selected high school students will be trained to work as peer facilitators with students of all ages, and/or from feeder middle and elementary schools. Participants will be trained in a variety of helping skills, which will enable them to assist other students in having a more positive and productive school experience. Elements of the course include: providing practical knowledge and skills, as well as actual field experience, for students potentially interested in careers in education or other helping professions; utilizing positive peer influence as a central strategy for addressing dropouts, substance abuse prevention, teen pregnancy and suicide, absenteeism, and other areas of concern in our district; and students are required to do a 10 hour outside of the classroom community service project. They are also required to purchase a t-shirt and supplies for class.

See PALS 1

This course teaches all Strategic Learning HS Math TEKS. Emphasis is placed on sheltered instruction strategies to help students understand content while developing language skills.
Recommendation: Placement based on recommendation and academic need

STRATEGIC LEARNING FOR HIGH SCHOOL MATH LEARNERS

This course is intended to create strategic mathematical learners from underprepared mathematics students. The basic understandings will stimulate students to think about their approach to mathematical learning. These basic understandings will include identifying errors in the teaching and learning process, input errors, physiological concerns, and key cognitive skills. The essential knowledge and skills will foster a deeper understanding of the task of learning mathematical concepts. Use of personal data and statistical analysis will establish relevance and aid in creation of individualized learning plans.

This course offers state credit but does not count toward math graduation requirements.

STUDENT LEADERSHIP

Course Key: STULEAD  Length: YR  Course Type: Innovative  Course Weight: Core
Service ID: N1290010  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No
Prerequisite(s): None
Recommended prerequisite(s): Teacher recommendation

This course provides an opportunity to study, practice, and develop group and individual leadership and organizational skills. These skills include the structure of leadership, organization, and managerial skills, citizenship, goal setting, group processes, and communication.

TEEN LEADERSHIP

Course Key: TEEN  Length: SM  Course Type: Regular  Course Weight: Core
Service ID: N1290012  Credits: 0.50  Credit Type: State  Counted in Rank GPA: No
Prerequisite(s): None

Teen Leadership is a semester course that teaches key concepts and skills essential for attaining maximum success. Students learn how to achieve personal goals, and develop a positive attitude and self-concept, along with peer pressure resistance and positive work ethic. Effective communication skills needed in professional and personal settings are taught and practiced throughout the course. Students learn social skills that are necessary to develop healthy personal and professional relationships and friendships which incorporate support and trust. Teen Leadership students will understand the value of integrity, the need for positive leadership, and will learn how to be proactive leaders.

Prerequisite(s): Must meet all UIL requirements and be placed in the program at recommendation of the coach

Basketball is taught in two parts with the first part taking place before and after the basketball season. First, the basic fundamentals of basketball are taught - shooting, passing, dribbling, rebounding, and defense. Special individual skill attainment is emphasized at this time. A secondary program of conditioning, consisting of weightlifting, running and other exercises that will benefit and strengthen the individual is implemented. The second phase (during the basketball season) places emphasis on competitive team play. Team offense and defense, as well as strategy and specific situation work, are emphasized.

In health education, students acquire the health information and skills necessary to become healthy adults and learn about behaviors in which they should and should not participate. To achieve that goal, students will understand the following: students should first seek guidance in the area of health from their parents; personal behaviors can increase or reduce health risks throughout the lifespan; health is influenced by a variety of factors; students can recognize and utilize health information and products; and personal/interpersonal skills are needed to promote individual, family, and community health.

The Lifetime Fitness and Wellness Pursuits course offers current approaches for the foundation of personal fitness, physical literacy, lifetime wellness, and healthy living. Students in Lifetime Fitness and Wellness Pursuits will apply the knowledge and skills to demonstrate mastery of the concepts needed to achieve lifetime wellness. Students will participate in a variety of physical activities for attaining personal fitness and lifetime wellness.

Students who are interested in receiving their Physical Education credit through participation in Partners in PE should contact their counselor for additional information. Students can earn this credit through participation in Partners in PE. Partners in PE is a reverse inclusion class where students will be peer tutors learning about the teaching process and working with individuals who have diverse abilities in an adaptive physical education class. Students will focus on developing competencies in either individual or team sports that can be incorporated into a physically active lifestyle beyond high school. Students submit a completed interest form to the campus Adapted PE (APE) teacher for approval. Students who meet eligibility for APE services are not eligible for this course.

The Lifetime Recreation and Outdoor Pursuits course provides opportunities for students to develop competency in five or more lifelong recreational and outdoor pursuits for enjoyment and challenge. Students in Lifetime Recreation and Outdoor Pursuits participate in activities that promote physical literacy, respect for and connection to nature and the environment, and opportunities for enjoyment for a lifetime. Students will experience opportunities that enhance self-worth and support community engagement.

Students who are interested in receiving their Physical Education credit through participation in Partners in PE should contact their counselor for additional information. Students can earn this credit through participation in Partners in PE. Partners in PE is a reverse inclusion class where students will be peer tutors learning about the teaching process and working with individuals who have diverse abilities in an adaptive physical education class. Prerequisite(s): Must meet all UIL requirements and be placed in the program at recommendation of the coach

Students who participate in swimming must be able to compete at a varsity level and be able to perform all four competitive strokes. Practices will begin after the first week of school. Tryouts for the team will be two weeks after the school year begins. The top 19 swimmers (both girls and boys) will remain on the team. The first three weeks concentration will be stroke mechanics and turns. As the season continues the team will begin conditioning and swim 5,000-7,000 yards per day. The competitive season begins in October and ends in February. During the off-season we will continue to swim and cross train and participate in meets in March and in April. Practices will be during the period and continue after school. Students must provide their own transportation home.

**TRACK 1**

- Course Key: TRK1
- Service ID: PES00000
- Length: YR
- Course Type: Regular
- Course Weight: Core
- Credit Type: State
- Counted in Rank GPA: No

Prerequisite(s): Must meet all UIL requirements and be placed in the program at recommendation of the coach

Students receive extensive training in the development of track and field techniques. During the first semester work is concentrated on the development of long distance running. Cross-Country meets are held on Saturday and all students are expected to attend these meets. Cross Country and Track and Field will field three teams: Varsity, Junior Varsity, and Freshmen. Training continues in the second semester in preparation for spring track and field competition. Students may participate on one of three teams: Varsity, Junior Varsity, or Freshmen.

**TRACK 2**

- Course Key: TRK2
- Service ID: PES00001
- Length: YR
- Course Type: Regular
- Course Weight: Core
- Credit Type: State

**VOLLEYBALL 1**

- Course Key: VOL1
- Service ID: PES00000
- Length: YR
- Course Type: Regular
- Course Weight: Core
- Credit Type: State
- Counted in Rank GPA: No

Prerequisite(s): Must meet all UIL requirements and be placed in the program at recommendation of the coach

Tryouts will be held in August. Participants who are selected for one of four competitive teams will be placed in the class. Participants work to develop fundamentals in passing, serving, spiking, blocking, team chemistry, digging, and offensive/defensive techniques. Participants will also learn the rules, regulations and terminology associated with the sport. The competitive season runs from August through November. In the spring, the off-season will focus on conditioning, weight training, plyometrics, and individual and team fundamentals.
VOLLEYBALL 2
Course Key: VOL2 | Service ID: PES00001
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
See Volleyball 1

VOLLEYBALL 3
Course Key: VOL3 | Service ID: PES00002
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
See Volleyball 1

VOLLEYBALL 4
Course Key: VOL4 | Service ID: PES00003
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
See Volleyball 1

WEIGHTLIFTING 1
Course Key: WL1 | Service ID: PES00000
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
Prerequisite(s): Must get a physical and complete RankOne paperwork within 2 weeks of school starting.
This course prepares individuals for the physical and technical skills required for healthy or competitive weightlifting. Participants work on fundamental technique, strength, agility and endurance daily. Participants will develop proper lifting techniques, as well as learn the rules, regulations, and terminology associated with the sport.

WEIGHTLIFTING 2
Course Key: WL2 | Service ID: PES00001
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
See Weightlifting 1

WEIGHTLIFTING 3
Course Key: WL3 | Service ID: PES00002
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
See Weightlifting 1

WEIGHTLIFTING 4
Course Key: WL4 | Service ID: PES00003
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
See Weightlifting 1

WRESTLING 1
Course Key: WRE1 | Service ID: PES00000
Length: YR | Credits: 1.00 | Course Type: Regular | Credit Type: State | Course Weight: Core | Counted in Rank GPA: No
Prerequisite(s): Must meet all UIL requirements and be placed in the program at recommendation of the coach.
This course prepares individuals for the physical and technical skills required for competitive collegiate wrestling. Participants work on fundamental technique, strength, agility and endurance daily. Participants will develop grappling skills, as well as learn the rules, regulations, and terminology associated with the sport. The first semester focuses on preparing individuals for the competitive season which runs from November to February. The second semester focuses on strength and conditioning.

### VIII. Committee Placement Electives

#### BASIC LANGUAGE 1
- **Course Key:** BL1
- **Length:** YR
- **Course Type:** Local Credit
- **Course Weight:** Modified
- **Service ID:** 84000BL1
- **Credits:** 1.00
- **Credit Type:** Local
- **Counted in Rank GPA:** No

**Prerequisite(s):** Placement by 504/ARD committee

This course is a multi-sensory approach to learning basic language skills of reading, writing, and spelling for students who have been assessed by a GISD Reading specialist and placed in the "Basic Language Skills" program by a SAIL committee. The goal of this course is for the students to acquire the skills necessary to be on grade level in reading, writing, and spelling.

Local Credit Course: Does not count toward state graduation requirements.

#### BASIC LANGUAGE 2
- **Course Key:** BL2
- **Length:** YR
- **Course Type:** Local Credit
- **Course Weight:** Modified
- **Service ID:** 84000BL2
- **Credits:** 1.00
- **Credit Type:** Local
- **Counted in Rank GPA:** No

**Prerequisite(s):** Placement by 504/ARD committee

See Basic Language 1

Local Credit Course: Does not count toward state graduation requirements.

#### BASIC LANGUAGE 3
- **Course Key:** BL3
- **Length:** YR
- **Course Type:** Local Credit
- **Course Weight:** Modified
- **Service ID:** 84000BL3
- **Credits:** 1.00
- **Credit Type:** Local
- **Counted in Rank GPA:** No

**Prerequisite(s):** Placement by ARD committee

See Basic Language 1

Local Credit Course: Does not count toward state graduation requirements.

#### BRIDGES
- **Course Key:** BRID
- **Length:** YR
- **Course Type:** Local Credit
- **Course Weight:** Modified
- **Service ID:** 85000BRD
- **Credits:** 1.00
- **Credit Type:** Local
- **Counted in Rank GPA:** No

**Prerequisite(s):** Completion of Graduation Requirements, ARD Committee Placement

This specially designed program is based on independence and preparation of young adults for life after high school by providing vocational transition skills training. BRIDGES currently has two tiers of operation. These young adults are able to access the BRIDGES program until after their IEP goals and objectives are met and/or they age out.

Local Credit Course: Does not count toward state graduation requirements.

#### COMPUTER SKILLS 1
- **Course Key:** CPSK1
- **Length:** YR
- **Course Type:** Local Credit
- **Course Weight:** Modified
- **Service ID:** 84700CS1
- **Credits:** 1.00
- **Credit Type:** Local
- **Counted in Rank GPA:** No

**Prerequisite(s):** ARD committee placement

This course will provide students with the opportunity to access technology through the use of various computer applications as well as learn to use the internet to collect data and/or gather information for specific class projects. The scope of this course is determined by the student's individual education plan (IEP).

Local Credit Course: Does not count toward state graduation requirements.
COMPUTER SKILLS 2
Course Key: CPSK2  
Service ID: 84700CS2  
Prerequisite(s): ARD committee placement

These courses assist students in developing skills in the areas of expressive, receptive, written, and/or symbolic representations of language. Attention is given to communicate effectively within the range of the student's abilities (directly or through assistive devices). Communication is examined in regard to social appropriateness, environmental cues and prompts, understanding generalizations in real-life context, and the responsibilities of independent living skills that relate directly to employment. Students will explore job-related language. The scope of these courses and TEKS mastered are determined by the student's individual education plan (IEP) responsibilities of independent living skills that relate directly to employment.

Local Credit Course: Does not count toward state graduation requirements.

MAKING CONNECTIONS 4
Course Key: MAKECON4  Length: SM  Course Type: Innovative  Course Weight: Core
Service ID: N1290335  Credits: 0.50  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): ARD Committee Placement
See Making Connections 1

MATH 5 SKILLS T
Course Key: MAT5ST  Length: YR  Course Type: Local Credit  Course Weight: Modified
Service ID: 84100MS5  Credits: 1.00  Credit Type: Local  Counted in Rank GPA: No

Prerequisite(s): ARD Committee Approval Only

These courses are designed to reinforce math operations using a variety of practical, real-life situations in mathematics in daily living exercises. Emphasis is on applying math in the use of money, personal financial situations and solving home and work problems. The scope of these courses and TEKS mastered are determined by the student's individual education plan (IEP).

Local Credit Course: Does not count toward state graduation requirements.

PATH COLLEGE CAREER 1 MODIFIED
Course Key: PATHCC1M  Length: YR  Course Type: Innovative  Course Weight: Modified
Service ID: N1290051  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): ARD Committee Placement

All students deserve academic and social support to help prepare them for the challenges they must face after high school graduation. The Path-College/Career Prep courses advance intellectual curiosity, conscientiousness, dependability, emotional stability, and perseverance through tasks that foster deeper levels of thinking and reasoning in the four core content areas. The Path secondary course series focuses on developing the habits and skills that are expected in college study and the workforce. High school Path students develop personal, interpersonal, and cognitive skills that are essential to productivity in both the collegiate and business worlds.

PATH COLLEGE CAREER 2 MODIFIED
Course Key: PATHCC2M  Length: YR  Course Type: Innovative  Course Weight: Modified
Service ID: N1290052  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Path-College Career I, ARD Committee Placement
See Path College Career 1 Modified

PATH COLLEGE CAREER 3 MODIFIED
Course Key: PATHCC3M  Length: YR  Course Type: Innovative  Course Weight: Modified
Service ID: N1290053  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Path-College Career II, ARD Committee Placement
See Path College Career 1 Modified

PATH COLLEGE CAREER 4 MODIFIED
Course Key: PATHCC4M  Length: YR  Course Type: Innovative  Course Weight: Modified
Service ID: N1290054  Credits: 1.00  Credit Type: State  Counted in Rank GPA: No

Prerequisite(s): Path-College Career III, ARD Committee Placement
See Path College Career 1 Modified
PERSONAL FAMILY DEV SKILLS 1
Course Key: PFDSK1  Length: YR  Course Type: Local Credit  Course Weight: Modified
Service ID: 85000PF1  Credits: 1.00  Credit Type: Local  Counted in Rank GPA: No
Prerequisite(s): ARD Committee Placement

This course allows students to develop skills necessary for caring for personal and family needs. Content includes interpersonal skills, decision making promotion of family strengths and wellbeing and developing positive relationships with peers. Students will use information to make informed choices related to personal hygiene, nutrition, home maintenance, safety and money management. The course will enable students to practice budgeting, develop consumer buying practices and manage family housing needs. This course will provide community learning opportunities. The scope of this course is determined by the student's individual education plan (IEP).

Local Credit Course: Does not count toward state graduation requirements.

PERSONAL FAMILY DEV SKILLS 2
Course Key: PFDSK2  Length: YR  Course Type: Local Credit  Course Weight: Modified
Service ID: 85000PF2  Credits: 1.00  Credit Type: Local  Counted in Rank GPA: No
Prerequisite(s): ARD Committee Placement

**ENGLISH LANGUAGE DEVELOPMENT AND ACQUISITION 1 (first year taken)**

**HIGH SCHOOL CREDIT**

Prerequisite(s): LPAC Placement.

Recommended corequisite is ESL 6, ELLA 7, or ELLA 8

This course must be taken concurrently with an ELAR course. English Language Development and Acquisition 1 (ELDA) is designed to provide instructional opportunities for secondary newcomers and recent immigrant students with little or no English proficiency. These students have scored at the negligible/very limited academic language level of the state-approved English oral language proficiency tests. This course enables students to become increasingly more proficient in English in all four language domains. It addresses cognitive, linguistic, and affective needs in compliance with federal requirements. The English Language Development and Acquisition (ELDA) course will validate a student's native language and culture as a valuable resource and as a foundation to attain the English language. It will develop social language, survival vocabulary, and the basic building blocks of literacy for newly arrived and preliterate students.

**English As A Second Language - 6th GRADE**

Recommended: Beginners / Newcomers (very limited English)

Students are placed in the appropriate ESL elective by the LPAC Committee based on the student's level of English proficiency (newcomer/beginning). This course develops an understanding of basic core vocabulary, expressions, and American customs. Emphasis is placed on English language acquisition through participation in numerous and varied language and cultural experiences in addition to direct, formal teaching of skills and structures in English. Students will gain competence in listening, speaking, reading, and writing.

English language arts and reading embody the interconnected nature of listening, speaking, reading, writing, and thinking through the seven integrated strands of developing and sustaining foundational language skills; comprehension; response; multiple genres; author's purpose and craft; composition; and inquiry and research. The strands focus on academic oracy (proficiency in oral expression and comprehension), authentic reading, and reflective writing. The strands are integrated and progressive with students continuing to develop knowledge and skills with increased complexity and nuance in order to think.
critically and adapt to the ever-evolving nature of language and literacy.

Prerequisite(s): LPAC committee placement
Recommended co-requisite: ENGLISH LANGUAGE DEVELOPMENT AND ACQUISITION, ELDA course

**ENGLISH LEARNERS LANGUAGE ARTS 7th**

The ELLA course is a specialized course providing intensive instructional setting for students with little or no English language. ELLA 7 mirrors ELAR Grade 7 standards and additional second language acquisition standards. ELLA 7 TEKS embody the interconnected nature of listening, speaking, reading, writing, and thinking through the seven strands of developing and sustaining foundational language skills, and recognize critical processes and features of second language acquisition to provide instruction to enable students to meet these standards. (Course intended for newcomers or recent immigrants with little or no English language and have been enrolled less than three years of US schools.)

Reading offers students reading instruction to successfully navigate academic demands as well as attain life-long literacy skills. Specific instruction in word recognition, vocabulary, comprehension strategies, and fluency provides students an opportunity to read with competence, confidence, and understanding. Students learn how traditional and electronic texts are organized and how authors choose language for effect. All of these strategies are applied in instructional-level and independent-level texts that cross the content areas.

</thead>
</table>

**HIGH SCHOOL CREDIT COURSE**  
Prerequisite(s): Algebra I

This course will explore the same topics as Geometry with more depth and complexity.

### Math 6

<table>
<thead>
<tr>
<th>Course Key: MA6</th>
<th>Length: YR</th>
<th>Service ID: 02820000</th>
<th>Grades: 6</th>
<th>Course Type: Regular</th>
</tr>
</thead>
</table>

The primary focal areas in Grade 6 are number and operations; proportionality; expressions, equations, and relationships; and measurement and data. Students use concepts, algorithms, and properties of rational numbers to explore mathematical relationships and to describe increasingly complex situations. Students use concepts of proportionality to explore, develop, and communicate mathematical relationships. Students use algebraic thinking to describe how a change in one quantity in a relationship results in a change in the other. Students connect verbal, numeric, graphic, and symbolic representations of relationships, including equations and inequalities. Students use geometric properties and relationships, as well as spatial reasoning, to model and analyze situations and solve problems. Students communicate information about geometric figures or situations by quantifying attributes, generalize procedures from measurement experiences, and use the procedures to solve problems. Students use appropriate statistics, representations of data, and reasoning to draw conclusions, evaluate arguments, and make recommendations. While the use of all types of technology is important, the emphasis on algebra readiness skills necessitates the implementation of graphing technology.

### Math 6/7

<table>

<th>Course Type: Regular</th>
</tr>
</thead>
</table>

The primary focal areas in Grade 7 are number and operations; proportionality; expressions, equations, and relationships; and measurement and data. Students use concepts, algorithms, and properties of rational numbers to explore mathematical relationships and to describe increasingly complex situations. Students use concepts of proportionality to explore, develop, and communicate mathematical relationships, including number, geometry and measurement, and statistics and probability. Students use algebraic thinking to describe how a change in one quantity in a relationship results in a change in the other. Students connect verbal, numeric, graphic, and symbolic representations of relationships, including equations and...
inequalities. Students use geometric properties and relationships, as well as spatial reasoning, to model and analyze situations and solve problems. Students communicate information about geometric figures or situations by quantifying attributes, generalize procedures from measurement experiences, and use the procedures to solve problems. Students use appropriate statistics, representations of data, and reasoning to draw conclusions, evaluate arguments, and make recommendations. While the use of all types of technology is important, the emphasis on algebra readiness skills necessitates the implementation of graphing technology.

The primary focal areas in Grade 8 are proportionality; expressions, equations, relationships, and foundations of functions; and measurement and data. Students use concepts, algorithms, and properties of real numbers to explore mathematical relationships and to describe increasingly complex situations. Students use concepts of proportionality to explore, develop, and communicate mathematical relationships. Students use algebraic thinking to describe how a change in one quantity in a relationship results in a change in the other. Students connect verbal, numeric, graphic, and symbolic representations of relationships, including equations and inequalities. Students begin to develop an understanding of functional relationships. Students use geometric properties and relationships, as well as spatial reasoning, to model and analyze situations and solve problems. Students communicate information about geometric figures or situations by quantifying attributes, generalize procedures from measurement experiences, and use the procedures to solve problems. Students use appropriate statistics, representations of data, and reasoning to draw conclusions, evaluate arguments, and make recommendations. While the use of all types of technology is important, the emphasis on algebra readiness skills necessitates the implementation of graphing technology.

In Grade 6, students study people, places, and societies of the contemporary world. Societies for study are from the following regions of the world: Europe, Russia and the Eurasian republics, North America, Central America and the Caribbean, South America, Southwest Asia-North Africa, Sub-Saharan Africa, South Asia, East Asia, Southeast Asia, Australia, and the Pacific realm. Students describe the influence of individuals and groups on historical and contemporary events in those societies and identify the locations and geographic characteristics of various societies. Students identify different ways of organizing economic and governmental systems. The concepts of limited and unlimited government are introduced, and students describe the nature of citizenship in various societies. Students compare institutions common to all societies such as government, education, and religious institutions. Students explain how the level of technology affects the development of the various societies and identify different points of view about events. The concept of frame of reference is introduced as an influence on an individual's point of view.

Students study the history of Texas from early times to the present. Students examine the full scope of Texas history, including Natural Texas and its People; Age of Contact; Spanish Colonial; Mexican National; Revolution and Republic; Early Statehood; Texas in the Civil War and Reconstruction; Cotton, Cattle, and Railroads; Age of Oil; Texas in the Great Depression and World War II; Civil Rights and Conservatism; and Contemporary Texas eras. The focus in each era is on key individuals, events, and issues and their impact. Students identify regions of Texas and the distribution of population within and among the regions and explain the factors that caused Texas to change from an agrarian to an urban society. Students describe the structure and functions of municipal, county, and state governments, explain the influence of the U.S. Constitution on the Texas Constitution, and examine the rights and responsibilities of Texas citizens. Students use primary and secondary sources to examine the rich and diverse cultural background of Texas as they identify the different racial and ethnic groups that settled in Texas to build a republic and then a state. Students analyze the impact of scientific discoveries and technological innovations on the development of Texas in various industries such as agricultural, energy, medical, computer, and aerospace. Students use primary and secondary sources to acquire information about Texas.

Social Studies 8

Course Key: SS8  Length: YR  Course Type: Regular
Service ID: 03343100  Grades: 8

In Grade 8, students study the history of the United States from the early colonial period through Reconstruction. Historical content focuses on the political, economic, religious, and social events and issues related to the colonial and revolutionary eras, the creation and ratification of the U.S. Constitution, challenges of the early republic, the Age of Jackson, westward expansion, sectionalism, Civil War, and Reconstruction. Students describe the physical characteristics of the United States and their impact on population distribution and settlement patterns in the past and present. Students analyze the various economic factors that influenced the development of colonial America and the early years of the republic and identify the origins of the free enterprise system. Students examine the American beliefs and principles, including limited government, checks and balances, federalism, separation of powers, and individual rights, reflected in the U.S. Constitution and other historical documents. Students evaluate the impact of Supreme Court cases and major reform movements of the 19th century and examine the rights and responsibilities of citizens of the United States as well as the importance of effective leadership in a constitutional republic. Students evaluate the impact of scientific discoveries and technological innovations on the development of the United States. Students use critical-thinking skills, including the identification of bias in written, oral, and visual material.

This is a full-year course for athletes who are participating in UIL sports. Practices will start before school or after school during the season. This course involves accelerated competition with other schools for football, volleyball, basketball, track, soccer and cross country. Cross country is offered only in the fall as a before or after school event. Athletes who compete only in track or basketball will not be allowed to enroll in this class until the second semester. During the second semester, all athletes will go through a strenuous off-season program featuring weight lifting, running, and agility drills. They will then practice their sport before or after school. There may also be a selected number of days dedicated to track and field preparation at the early phase of track season and a selected number of days dedicated to football skills during the last two weeks of the semester. There is a required dress code; these items must be purchased.

Tennis is offered as an additional athletic class with before and after school practices. Tennis is a competitive program participating in dual matches and tournaments throughout the fall and spring. Try-outs are conducted in the spring. A physical exam and personal or school insurance are required for all athletes competing in any sport.

**HIGH SCHOOL CREDIT**

In health education, students acquire the health information and skills necessary to become healthy adults and learn about behaviors in which they should and should not participate. To achieve that goal, students will understand the following: students should first seek guidance in the area of health from their parents; personal behaviors can increase or reduce health risks throughout the lifespan; health is influenced by a variety of factors; students can recognize and utilize health information and products; and personal/interpersonal skills are needed to promote individual, family, and community health.

Grades: 6

In grade 6 physical education, students acquire the knowledge and skills for movement that provide the foundation for enjoyment, continued social development through physical activity, and access to a physically-active lifestyle. The student exhibits a physically-active lifestyle and understands the relationship between physical activity and health throughout the lifespan. Students understand in greater detail the function of the body, learn to measure their own performance more accurately, and develop plans for improvement. They learn to use technology such as heart rate monitors to assist in measuring and monitoring their own performance. Identifying the types of activities that provide them with enjoyment and challenge and that will encourage them to be physically active throughout life is reinforced during instruction in these grades. Students must participate in at least 30 minutes of moderate to vigorous daily physical activity for at least four semesters.

## PE/Health 6th Pre-Athletics

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Grades: 6

The pre-athletics class will incorporate a variety of activities that will help to develop the overall student-athlete. Athletes who participate in this course will be asked to suit out each day ($30.00 fee), participate in all activities and work at a vigorous level. Each week, students will be given specific training in the following: speed and endurance, agility, explosive movement, weight training, and sport-specific skills. Athletes will rotate day to day between several activities.

## PE/Health 7th

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

Grades: 7

In grade 7 physical education, students acquire the knowledge and skills for movement that provide the foundation for enjoyment, continued social development through physical activity, and access to a physically-active lifestyle. The student exhibits a physically-active lifestyle and understands the relationship between physical activity and health throughout the lifespan. Students apply similar concepts from one sport or movement setting to another. Students can observe another individual's performance and notice key elements for success. At this grade level, students participate in physical activity both in and out of school while maintaining a healthy level of fitness as their bodies grow and change. Their knowledge of safety and the ability to manage their own behavior is reinforced. Instruction is directed more toward encouraging the incorporation of physical activity into a daily routine and less toward fundamental skill development. Students must participate in at least 30 minutes of moderate to vigorous daily physical activity for at least four semesters.

## PE/Health 8th

<table>
<thead>

Grades: 8

In grade 8 physical education, students acquire the knowledge and skills for movement that provide the foundation for enjoyment, continued social development through physical activity, and access to a physically-active lifestyle. The student exhibits a physically-active lifestyle and understands the relationship between physical activity and health throughout the lifespan. Although the acquisition of physical fitness and skill development is important, the emphasis is placed more on participation for enjoyment and challenge, both in and out of school. Understanding the need to remain physically active throughout life by participating in enjoyable lifetime activities is the basis for eighth-grade instruction. Students must participate in at least 30 minutes of moderate to vigorous daily physical activity for at least four semesters.
Tennis 7th
Course Key: **TEN7**  Length: YR  Course Type: Regular
Service ID: 03823000  Grades: 7
Tennis is offered through a partnership with the City of Georgetown Recreation Center as a PE substitution subject to student interest and instructor availability.

Tennis 8th
Course Key: **TEN8**  Length: YR  Course Type: Regular
Service ID: 03823000  Grades: 8
Tennis is offered through a partnership with the City of Georgetown Recreation Center as a PE substitution subject to student interest and instructor availability.
VI. Fine Arts

**Art 1 Middle School**

| Course Key: | ARTM1 | Length: YR | Course Type: Regular |
| Service ID: | 03154110 | Grades: 6-8 |

Activities in the TEKS-based Art curriculum will be centered on exploring the elements of art and principles of design in selected projects which may include drawing, design, painting, ceramics, mask-making and three-dimensional projects. A variety of mediums will be used to create 2- and 3-dimensional artwork.

**Art 2 Middle School**

| Course Key: | ARTM2 | Length: YR | Course Type: Regular |
| Service ID: | 03154210 | Grades: 7-8 |

Students will further explore the elements of art and principles of design, as presented in Art I. Students will be encouraged and expected to display a higher degree of initiative and creativity in the production of all work, regardless of chosen medium, whether it be ceramics, painting, drawing, cartooning, or computer art. Students may, at times, complete independent projects with a teacher-approved goal in mind.

**Art 3 Middle School**

| Course Key: | ARTM3 | Length: YR | Course Type: Regular |
| Service ID: | 03154310 | Grades: 8 |

This course is a continuation of Art II and will further explore and develop the spiraling curriculum from Art II. Students will explore the elements of art and principles of design, as presented in Art II. Students will be encouraged and expected to display a higher degree of initiative and creativity in the production of all work, regardless of chosen medium, whether it be ceramics, painting, drawing, cartooning, or computer art. Students may, at times, complete independent projects with a teacher-approved goal in mind.

**Band 1 Middle School**

| Course Key: | BANDM1 | Length: YR | Course Type: Regular |
| Service ID: | 03154130 | Grades: 6-8 |

The band program begins in Georgetown ISD in the sixth grade with classroom instruction on each of the basic band instruments. Although it is highly recommended that students begin band in the sixth grade, under certain circumstances seventh and eighth graders will be allowed to enter beginning band if the student receives director approval. The instructors are eager for each student to get the best possible start as a musician and a band member. The sixth grade band performs in concerts and at local competitions and there may be a few outside class rehearsals.

Sixth grade is the best opportunity to enroll in entry level band. No previous band/music experience is necessary. All students interested in band should attend the spring instrument selection night. Students are screened at this event to find the most appropriate instrument for them depending on size, physical characteristics, aptitude and balanced instrumentation. Instruments may be obtained from local music stores which offer quality instruments to beginner students in affordable “rent to own” programs. Some more expensive instruments are rented through the school such as the French horn, bassoon, oboe, tuba, and euphonium. If a student is in need, there are school owned instruments available for a minimal fee. Please contact a director before purchasing an instrument.

**Band 2 Middle School**

| Course Key: | BANDM2 | Length: YR | Course Type: Regular |
| Service ID: | 03154230 | Grades: 7-8 |

Band II is a student's second year in Band. This is a student who has developed a solid understanding of the basic fundamentals of band and their instrument. A student in Band II will audition for placement in a performance ensemble toward the end of the previous school year. Students in performance ensembles may be required to attend morning and/or afternoon rehearsals, after school technique classes, and should be in the process of developing correct and consistent individual practice habits. Members of performance ensembles will also participate in UIL Evaluation (Concert and Sight Reading), solo and ensemble competition, and other extracurricular performances and events.

Choir I is a student's first year in Choir. This is a full year course designed to introduce students to the technical activities and studies needed for individual and group vocal production. Vocal techniques, vocal development, sight reading, music terminology, and the development of music self-expression are emphasized. Choir I will perform publicly several times, which includes fall and winter concerts, as well as other opportunities to perform throughout the year. At the end of the year in Choir I, students who wish to continue in Choir may audition for a place in a performance ensemble.

Dance students develop perceptual thinking and movement abilities in daily life, promoting an understanding of themselves and others. Students develop movement principles and technical skills and explore choreographic and performance qualities. Students develop self-discipline and healthy bodies that move expressively, efficiently, and safely through space and time with a sensitive kinesthetic awareness. Students recognize dance as a vehicle for understanding historical and cultural relevance, increasing an awareness of their heritage and traditions and those of others, and enabling them to participate in a diverse society. Evaluating and analyzing dance allows students to strengthen decision-making skills, develop critical and creative thinking, and develop artistic creative processes. Students continue to explore technology and its application to dance and movement, enabling them to make informed decisions about dance.

This course is a continuation of Orchestra II at a higher level of the spiraling fine arts curriculum. Orchestra III is for students who have completed one year or more of string study. The orchestra performs at many school and community events and takes part in UIL and other contests. Ensemble playing, technique development, and music reading skills are taught. Students are also encouraged to take private lessons and to join community ensembles designed for their level of expertise. Students will be placed into a particular orchestra class based upon audition, instrumentation needs and level of accomplishment in Orchestra II.

**HIGH SCHOOL CREDIT**

**FUNDAMENTALS OF COMPUTER SCIENCE**

Fundamentals of Computer Science is intended as a first course for those students just beginning the study of computer science. Students will learn about the computing tools that are used every day. Students will foster their creativity and innovation through opportunities to design, implement, and present solutions to real-world problems. Students will collaborate and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Students will learn the problem-solving and reasoning skills that are the foundation of computer science. By using computer science knowledge and skills that support the work of individuals and groups in solving problems, students will select the technology appropriate for the task, synthesize knowledge, create solutions, and evaluate the results. Students will learn digital citizenship by researching current laws and regulations and by practicing integrity and respect. Students will gain an understanding of the principles of computer science through the study of technology operations and concepts.

This course will enable students to further explore the five C's (communication, culture, connections, comparisons, and communities), completing the novice level of proficiency. Students will continue to work on their interpersonal, interpretive, and presentation skills in order to effectively communicate with others. This course aims to provide students with a well-rounded exploration and foundation of the target language.
Spanish 2 Speakers HS Advanced
Course Key: SPAN2SJH  Length: YHS  Course Type: High School Credit/Honor  Course Weight: Advanced
Service ID: 03440220  Grades: 6-8  Counted in Rank GPA: Yes  Credits: 1.00

HIGH SCHOOL CREDIT
Prerequisite(s): Participation in elementary Dual Language Program (Dual Language department approval), AVANT placement

This course is designed for former DL students who elect to continue their Spanish language and literacy skills in middle school. This course follows the same TEKS as Spanish 2 Advanced in high school.

Spanish 3 HS Advanced
Course Key: SPAN3JH  Length: YHS  Course Type: High School Credit/Honor  Course Weight: Advanced
Service ID: 03440300  Grades: 8-9  Counted in Rank GPA: Yes  Credits: 1.00

HIGH SCHOOL CREDIT
Prerequisite(s): Credit in Levels I and II, AVANT placement

This course will primarily focus on strengthening students' interpersonal, interpretive, and presentation skills. This course will stress students' abilities to effectively utilize different forms of communication. Students will be provided opportunities to practice their real world survival skills both in and outside of the classroom. This course will contain a component of AP curriculum and AP-style tasks in an attempt to prepare students for their respective AP Language and Culture exam. In an attempt to further prepare students for their respective AP language exam, a higher amount of the target language will be spoken by the course instructor.

Spanish 3 Speakers HS Advanced
Course Key: SPAN3SJH  Length: YHS  Course Type: High School Credit/Honor  Course Weight: Advanced
Service ID: 03440330  Grades: 6-8  Counted in Rank GPA: Yes  Credits: 1.00

HIGH SCHOOL CREDIT
Prerequisite(s): Spanish 2, AVANT placement, participation in elementary dual language program (Dual Language department approval)

This course is designed for former dual language students who elect to continue their Spanish language and literacy skills in middle school. This course follows the same TEKS as Spanish 3 Advanced in high school.

Spanish 4 MSHS Advanced
Course Key: SPAN4JH  Length: YHS  Course Type: High School Credit/Honor  Course Weight: Advanced
Service ID: 03440400  Grades: 8  Counted in Rank GPA: Yes  Credits: 1.00

Prerequisite(s): Credit in Levels II and III, AVANT placement

This course will primarily focus on strengthening students' interpersonal, interpretive, and presentation skills. The course will stress students' abilities to effectively utilize different forms of communication. Students will be provided opportunities to practice their real world language skills both in and outside of the classroom. This will begin to prepare students for future AP Language and Culture course/exam. A high amount of the target language will be spoken by the course instructor.

Teen Leadership HS
Course Key: TEENJ  Length: SHS  Course Type: High School Credit  Course Weight: Core
Service ID: N1290012  Grades: 7-8  Counted in Rank GPA: No  Credits: 0.50

HIGH SCHOOL CREDIT

Teen Leadership is a semester course that teaches key concepts and skills essential for attaining maximum success. Students learn how to achieve personal goals, and develop a positive attitude and self-concept, along with peer pressure resistance and positive work ethic. Effective communication skills needed in professional and personal settings are taught and practiced throughout the course. Students learn social skills that are necessary to develop healthy personal and professional relationships and friendships which incorporate support and trust. Teen Leadership students will understand the value of integrity, the need for positive leadership, and will learn how to be pro-active leaders.
